B.C. LOSES NEW ZEALAND NEWSPRINT ORDERS

Council's Day's Labor Fails To Bridge Manchuria Gap Evacuation Date Delays Japan and China Settlement

Yoshizawa Tells League Council at Geneva Tokio Will Not Agree to Time Limit for Troop Withdrawal in Manchuria and Insists on Direct Negotiations With China; Sze, for China, Rejects Direct Negotiations as Long as Japanese Troops Remain

Canadian Press
Geneva, Oct. 23.—Once more Japan rejected the League of Nations Council's proposals for evacuation of Manchuria by a stipulated date. Blocked again, the Council adjourned to-night until to-morrow without taking any action.

Dr. Alfred Sze, China's delegate, accepted the Council's proposals in general, but said his government would refuse to negotiate directly with Japan while Japanese troops remained in Manchuria.

YOSHIZAWA SPEAKS
Kenkichi Yoshizawa, speaking for Japan, insisted again on direct negotiations and presented a list of counter-proposals which in effect reaffirmed the position his government had taken at the beginning of the conflict.

INVITATION TO U.S.
Dr. Sze in accepting the terms of the resolution proposed yesterday by Article Britain as a basis for restoring peace in Manchuria, invited the United States to associate itself in supervising its execution.

China accepted the proposal for setting November 16 for complete evacuation of Japanese troops in Manchuria, he said, although the Chinese Government deplored the delay involved and regarded it as "playing with fire."

China was willing to pledge the security of Japanese lives and property in Manchuria and to submit to the supervision of this and other measures of the resolution by neutral officials. He invited participation of the United States in the Chinese efforts to secure the interests of Japanese nationals.

China never would agree, however, he said, to being forced into direct negotiations with Japan while "the foreign invader is illegally on her soil."

COUNTER-PROPOSALS
M. Yoshizawa said the Japanese Government was not prepared to complete evacuation by November 16 as the British proposals suggested. He submitted a set of counter-proposals.

First, he reiterated the Japanese stand that her troops will be withdrawn to the railway zone in Manchuria providing China offers assurances of the security of Japanese lives and property. Second, he recommended direct negotiations between China and Japan begin immediately.

NAMING OF DELEGATES
Third, he proposed the Chinese and Japanese governments designate their representatives immediately to fix the details of the evacuation and the taking over of the area affected.

HON. N. CURRY OF SENATE DIES

Nova Scotia Conservative Succumbs at Amherst in Eighty-first Year

Canadian Press
Amherst, N.S., Oct. 23.—Hon. Nathaniel Curry, a Conservative member of the Canadian Senate since 1912, died at his summer residence at Tidnish, N.S., this morning. He was eighty years old.

Senator Curry had been ill for several weeks, suffering from recurrence of a heart ailment and other complications, but it was not until the last few days the seriousness of his condition became known.

The late senator was prominently identified with the industrial life of Amherst, and was connected with a number of phases of Canadian business. Born in Kings County, Nova Scotia, March 26, 1851, he came to Amherst in his youth and in association with Nathaniel Rhodes, father of the present Federal Minister of Fisheries, founded Rhodes-Curry Limited.

N MANY BOARDS
His industrial connections, centred about the car construction and foundry business, were so wide that at one time he held the presidency of twelve Canadian companies and directorate in the boards of thirty. At the time of his death he was chairman of the board of the Canadian Car and Foundry Company, having retired from the presidency several years ago.

Senator Curry was a member of the Baptist Church.

He married Mary M. Hall, and had five sons, three of whom survive him.

HITOMI CASE GOES TO JURY IN VANCOUVER

Verdict Expected Soon on Murder of S. Watanabe; Comments on Police

Two Japanese Interpreters Used During Hearing in Terminal City

Canadian Press
Vancouver, Oct. 23.—The fate of Tadasi Hitomi, charged with the murder of S. Watanabe, will be known late to-day, when, after the evidence has closed and counsel have made their addresses, Mr. Justice Gregory will leave the case in the hands of the Assize Court jury of twelve men.

Vancouver police officers were criticized by the judge yesterday.

"I have criticized police officers in this trial, but I wish to say it was only that there was carelessness and sloppiness about their work which should not exist," said the judge.

Prosecutor F. G. T. Lucas, K.C., on a previous occasion had complimented the police for their efforts in unraveling the Watanabe murder.

Two Japanese interpreters were utilized yesterday when Japanese witnesses testified. One interpreter stood beside the witness box and interpreted the evidence to the judge and jury. The other interpreter stood alongside the prisoners' dock and repeated the testimony to the accused, so he would not miss any of the evidence.

LAVALAND HOOVER TALK

French Premier and U.S. President Exchanging Views on Important Questions

By Robert S. Pickens, Associated Press Writer.
Washington, Oct. 23.—The great doors of the White House swung open to-day to admit as a guest the second European Premier to visit President Hoover.

Within Premier Laval of France and President Hoover sat down to talk over the mutual problems facing the French Republic and the United States just as Mr. Hoover talked with Premier MacDonald of Great Britain on naval armaments two years ago. Such delicate subjects as disarmament and such intricate ones as gold distribution and war debts were on the programme.

Behind both of the statesmen was the shadow of two legislatures eager to scan and willing to criticize any agreements or solutions which may be reached. Both will ponder the reactions of Congress and Parliament before making commitments.

Yesterday the two men met and talked together. First when the smiling little Frenchman was welcomed with ceremony after his arrival from New York and again yesterday evening when they sat down alongside each other at a White House dinner given to a group of distinguished French visitors. An interpreter sat behind them.

British Troops Restore Order On Cyprus Isle

150 Soldiers Landed By Planes and Added to Forces; No Outbreaks To-day

Not More Than 15,000 of Island's 350,000 People Demonstrated

Canadian Press
Nicosia, Island of Cyprus, Oct. 23.—Seven planes of the British Royal Air Force arrived here to-day, bringing 150 soldiers from Egypt to assist in putting down the Cyprian revolt. The distance of 500 miles was flown in seven and one-half hours.

Arrival of the troops and determined action by local authorities had the effect of easing the tension of the situation, and Governor Sir Ronald Storrie said this morning the situation was now well in hand, and further reinforcements would be unnecessary.

WARSHIPS AT PORTS
The cruiser London arrived at Larnaca to-day and the cruiser Shropshire at Limassol. The destroyer (Continued on Page 2)

New Zealand to Have Early General Election

Coalition Ministry Will Appeal to People Soon After Present Parliament Session Ends; December 2 or 9 Probable Date

Canadian Press
Wellington, N.Z., Oct. 23.—Premier Forbes announced after a special meeting of the National Cabinet to-night that the government would go to the country at the earliest possible moment after conclusion of the present special session of Parliament.

The Dominion is following the example of Great Britain throughout. The present administration, a National Government representing both the United and Reform parties, will fight the general election as a coalition government, opposing the Labor Party.

No date has been fixed for the election, but it is expected polling will take place either December 2 or December 9. A short session will be called as early after New Year as possible.

ENDORSEMENT WANTED
"The government feels it is imperative its policy of sound finance should have the country's emphatic endorsement," declared Premier Forbes in announcing the election.

To the Prime Minister's election statement was joined an appeal by Mr. Coates, head of the Reform Party, urging all his party candidates and supporters to work for the return of the National Government.

DOLLAR AT 89.7-8 IN EXCHANGE DEALS

New York, Oct. 23.—Canadian money was unchanged from yesterday's close of 89.7 cents in local foreign exchange deals to-day, and British currency sagged to \$2.91 1/2, two and one-half cents lower than yesterday's close of \$2.94.

Both currencies fluctuated narrowly.

Montreal, Oct. 23.—The pound sterling was rated at \$4.35 1/4 at 3 p.m. to-day in local foreign exchange transactions.

C. OF C. COUNCIL TOLD PESSIMISM NOT JUSTIFIED

Paris, Oct. 23.—The council of the International Chamber of Commerce was told by Abraham Fraumeni, its German vice-president, to-day that pessimistic views of world economic conditions were not justified.

"The effects of the crisis at present are so acute," he said, "that some people doubt the solidity of the bases of modern economy. There is nothing justifying such a pessimistic view of things."

—If creditor nations should attempt to recover interest on loans or the loans themselves by other means than accepting goods in payment or granting fresh credits, he said, they would make the same mistake as individuals attempting to convert their values into gold.

DIES IN PORTLAND

HERBERT CUTHBERT, FORMER TOURIST HEAD HERE, DIES

Ex-Alderman of City Passes at Portland; Had Many Friends Here

Herbert Cuthbert, for years commissioner of the Victoria and Island Development Association, died on Monday at Portland, Ore., where he had been lying for some years.

Mr. Cuthbert was prominent in Victoria activities during his residence here. He was elected to the City Council as alderman for Ward Four in 1912 and served through the years 1913 and 1914. In the latter year, he was elected commissioner of the newly organized Victoria and Island Development Association. One of the outstanding publicity enterprises here under his direction was the Victoria carnival of 1913. The year before that to attract attention to Victoria in the south, he organized the Flying Legion to California. That year he went to Ottawa as a member of the Seymour Marrow Bridge deputation. He was active in the affairs of the Board of Trade here.

As a result of the outside contacts Mr. Cuthbert had established and the reputation in publicity work he had built up for himself, he was appointed secretary and then first executive manager of the Pacific Northwest Tourist Association, when it was organized in 1917 to embrace British Columbia, Washington and Oregon. This appointment necessitated his removal to Seattle. In his enlarged sphere, he became even more widely known for his ability in community advertising and promotion work.

When the Portland Chamber of Commerce reorganized a few years ago, Mr. Cuthbert was persuaded to become manager of its advertising and promotion department, and he moved from Seattle to the Oregon city. He was active in that office until last July, when his health forced his retirement. A year or more (Continued on Page 2)

WELL-KNOWN DENTIST DIES

Dr. Burt C. Richards, Native Son of Victoria, Succumbs After Long Illness

Dr. Burt C. Richards, well-known native son and prominent member of the dental profession of this city, passed away this morning after a prolonged illness at his residence, Waldron Apartments, Burdette Avenue, aged forty-three years. He is survived by his widow, one sister, Miss Blanche Richards of Victoria, and one brother, Dr. C. R. Richards of New York.

The late Dr. Richards was born in Victoria, his father being for many years the sheriff of this city. He received his early education in the local schools and graduated in dentistry from the Philadelphia Dental College, returning to Victoria in 1914 to practice. For a number of years he was in the Arcade Building, but, on the completion of the Kyngess Building, this year, opened his office in the building in partnership with Dr. E. H. Griffiths.

Of kindly, genial disposition, Dr. Richards had a host of friends in fraternal and club circles. He was a keen sportsman and, until the condition of health precluded it, was a devotee of the rod and gun. He was a Freemason of the thirty-second degree, being a member of St. Andrew's Lodge No. 49, A.F. and A.M., and of the Gish Shrine Temple. He was also a member of the Pacific Club.

The funeral will be held on Monday afternoon, leaving Hayward's B.C. Funeral Parlor at 2 o'clock, and proceeding to the Metropolitan United Church, where Rev. E. F. Church will conduct the services at 2.15 o'clock. Interment will be in the family plot in Ross Bay cemetery.

Coast Exports Affected By Decision of Papers In Southern Dominion

SOUTH ONTARIO POLICE HUNT FOR FIREBUGS

No Trace Yet of Men Who Set Buildings on Fourteen Farms Ablaze

Population of Wentworth County in Jumpy Condition

Canadian Press
Hamilton, Ont., Oct. 23.—Persons responsible for fourteen incendiary fires in Wentworth County are still at liberty, and thus far police have not even a theory to offer as to the disastrous conflagrations which have terrorized the countryside.

Yesterday brought the heaviest blow of all when the big double barn owned by Frederick Hostein Jr. was reduced to ashes—a loss of more than \$20,000 inflicted. This was only partly covered by insurance. To-day the whole Lancaster district was in a state of extreme nervousness, as in the area are located some of the wealthiest landowners in southern Ontario with buildings and houses of many thousands of dollars in value.

All was quiet in Beverly Township, scene of earlier outbreaks. Police patrolled the district, but no untoward incidents occurred.

CHINA DIPLOMAT TO PASS THROUGH VICTORIA NOV. 9

Shanghai, Oct. 23.—Hawk Ling-yen, newly appointed Chinese Charge d'Affaires at Washington, will leave Sunday for his new post. He has engaged passage aboard the steamship Empress of Russia.

Hawk wishes to reach Washington as soon as possible to deal with affairs of the far eastern situation.

The Empress of Russia is scheduled to arrive at Victoria November 9 and proceed to Vancouver.

B.C. Douglas Fir In Glasgow Homes Scheme

R. STEWART HAS FILED APPEAL

Preliminary Step Taken to Secure Review of Recent Conviction

Ronald C. C. Stewart will appeal to the British Columbia Court of Appeal against a sentence of two years imprisonment imposed by Mr. Justice Murphy, following conviction by an Assize Court jury of having attempted to incite members of His Majesty's forces to mutiny and having distributed seditious literature.

The grounds on which the appeal is taken have not been stated in any notice. An appeal may be taken against a jury's verdict within thirty days, and may be based on either fact or law. An application has been made for a copy of the court record of the charge of Mr. Justice Murphy to the jury.

It is understood that the appellant will be represented by counsel in the hearing before the Court of Appeal.

LINDBERGH'S FLY SOUTH OF GREAT LAKES TO NEW JERSEY

Associated Press
Moline, Ill., Oct. 2.—Colonel and Mrs. Charles A. Lindbergh spent twenty minutes at the Moline airport to-day while their plane was refueled. Colonel Lindbergh said weather conditions had been bad between Des Moines and Iowa City. He was not sure they would be able to reach home by to-night, but said they would fly as far east as possible.

The Lindberghs landed at approximately 1.30 p.m. central standard time (11.30 a.m. Victoria time), and left twenty minutes later.

The colonel said they would probably fly south of Chicago, but that the weather would determine the route.

Moline is 150 miles west-southwest of Chicago.

British Columbia Newsprint Manufacturers Hope Their Market in New Zealand Will Not Be Rigidly Reduced to One-third of That Country's Requirements; Recommendation of New Zealand Newspaper Proprietors' Association to Its Members to Switch Bulk of Orders to Mills in Britain Reported in Dispatches

PREDICTS ATLANTIC WILL BE CROSSED IN FOUR HOURS

FRITZ VON OPEL

German rocket expert, now on a visit to the United States, says he believes people at no great distance in the future will be flying across the Atlantic in three to four hours. The picture above was taken when he arrived in New York the other day, and told of his discovery of a new explosive he thinks will make the feat possible.

GAS INQUIRY PLAN DEBATED

Local Branch of B.C. Automobile Association Behind Lower Price Move

A delegation from the British Columbia Automobile Association may be formed to approach the government on the question of a gasoline price inquiry, as a result of a visit which Robert Webb, secretary of the local branch, will pay to A. R. McFarlane, president of the B.C. body.

This information was given a meeting of the local directors to-day. The Victoria branch of the B.C.A.A. was the first B.C. body to point out the high prices of gasoline compared with those in the U.S.A. In Vancouver also a gallon can be bought for two cents less than in Victoria, it was pointed out.

As a result of the Victoria branch's move, the matter was taken up by the Alberta Automobile Association and put before the recent Calgary conference of western Premiers, from which Premier Tominia has just returned.

Premier Tominia said yesterday that B.C. would co-operate with the other western provinces in the price inquiry under the Combines Investigation Act, so it is hoped that the added pressure from the B.C.A.A. would bring good results.

A resolution will be submitted to the City Council asking that necessary work, such as improvement of Cook Street, Pandora and Oak Bay Avenues, be hurried to their completion.

And Douglas Street up by Beacon Hill Park be included in the unemployment relief programme.

HERBERT CUTHBERT, FORMER TOURIST HEAD HERE, DIES

(Continued From Page 1)

ago his health was impaired, but he recovered sufficiently to take up his work at the Chamber of Commerce.

A native of England, Mr. Cuthbert came to western Canada as a young man and launched into the real estate business, eventually opening in that field in Victoria and continuing until he took up the community publicity work. He was sixty-six years of age.

Surviving him at the family home, 625 East 20th Street North, Portland, are his widow and six children, Mildred, Marjorie, Herbert, Elizabeth, Henry and William, recently of Alameda, Cal.

Four years ago, next Thanksgiving Day, a daughter, Winifred, seventeen, Grant High School student, was drowned when a roadster in which she had ridden with friends to meet other mutual friends coming from the south for the holidays in Portland, plunged from the dock into the river. Mr. Cuthbert never fully recovered from the shock of the tragedy.

Funeral services were held on Wednesday in Portland.

Since he moved his home south to Seattle and then Portland, Mr. Cuthbert and his family had been frequent visitors to Victoria, spending part of their summer vacations at their place at Cordova Bay.

HON. N. CURRY OF SENATE DIES

(Continued From Page 1)

Ottawa, Oct. 22.—The death of Hon. Nathaniel Curry, a Nova Scotia Conservative member of the Senate, at Tidnish, N.S., today created the third vacancy in the second chamber, and incidentally the second for Nova Scotia. Hon. E. M. Farrell, Liverpool, N.S., died shortly after the end of the last session of Parliament and a successor, who will probably be Dr. J. A. MacDonald, former Conservative member for Richmond-West Cape Breton, remains to be chosen. The third vacancy is in Quebec province, owing to the death several months ago of Hon. G. G. Foster of Montreal.

While Liberals now have a majority of one in the Senate, appointments to the three vacancies, likely to be made before Parliament again opens, will give the Conservatives a majority of two.

The party standing in the Senate is now: Liberals 47, Conservatives 46, vacancies 3; total 96.

Five In B.C. Honored For Brave Rescues

Hamilton, Ont., Oct. 22.—George A. Burrows, Vancouver, B.C., to-day was awarded the bronze medal for bravery of the Royal Canadian Mounted Association by the investigating governors of the association.

The award was made to Mr. Burrows for his heroic action in the rescue of Norman Robertson from drowning at Kitilano Beach, Vancouver, B.C., July 18 last.

Parliamentary certificates were awarded to the following: Robert N. Stephen, New Westminster, B.C.; Hugh Chabonneau, Cloverdale, B.C.; W. J. Ostrom, Humboldt, Sask.; A. Kishinsky, Humboldt, Sask.; Margaret Currie, West Vancouver, B.C.; and Douglas James Bingham, Prince George, B.C.

BRITISH TROOPS RESTORE ORDER ON CYPRUS ISLE

(Continued From Page 1)

Acosta was at Lathos and the Achates at Famagusta. It was not expected any more vessels would be sent here.

It was believed not more than 15,000 of the 350,000 people on the island participated in the demonstration yesterday.

ONE DEATH REPORTED

London, Oct. 22.—Disorders on the island of Cyprus have subsided, the Colonial Office announced to-day, and the situation is "smoothing over," though still unsettled.

There were casualties except injuries on Wednesday evening when agitators for union with Greece caused disturbances at Nicosia. One of the injured was reported to have died.

Athens, Greece, Oct. 22.—Disturbances on the island of Cyprus cannot develop any trouble between Greece and Great Britain, Foreign Minister Michalakopoulos said to-day.

"Any differences between the island people and the British Government can in no circumstances create a conflict between Great Britain and Greece," he said. "The Hellenic government has encouraged the manifestations of the islanders."

ARGUMENT OVER TARIFFS

Larnaka, island of Cyprus, Oct. 22.—Military and naval forces of Great Britain were on patrol to-day, quelling a revolt in Cyprus, ancient Mediterranean island over which Alexander the Great squabbled with an Egyptian Pharaoh, and when St. Paul, St. Mark and St. Barnabas preached early Christianity.

For more than a day most of the island had been in control of revolutionaries who demanded union with Greece, which aided Cyprus in the struggle against Alexander, 2,000-odd years ago.

The revolt developed after weeks of agitation against a British imperial order in council imposing tariffs which the Cyprian Legislative Council had rejected.

Late yesterday evening a group of revolutionaries stopped motor trucks carrying ration for British soldiers at Limassol, the ancient town where Richard the Lion-Hearted married Berengaria of Navarre in 1191. The drivers of the trucks were forced to abandon them.

HOUSE BURNED

The mob then overpowered the police and attacked and burned the district commissioner's house.

Wednesday evening, when the rioting began, several members of the council, after addressing a large meeting at Nicosia, led a group of revolutionaries to Government House to present their resignations and demand union with Greece.

They rushed the guard and stoned the building, breaking windows and tiles. Six automobiles, including the cars of the governor and the police, were burned and finally Government House itself was set on fire and burned to the ground.

DOZEN WOUNDED

Several policemen were injured in the melee. Their comrades fired on the crowd and ten or twelve persons were wounded.

Meanwhile the revolt spread to every town and village on the island. Dozens of the Royal Welsh Fusiliers were ordered out. At Famagusta they stood guard while women and children were taken out to ships in the harbor.

At Nicosia, the mythology says Aphrodite, the Goddess of Love, was born of sea foam, moths roamed through the streets.

Although a state of nervous tension continued to prevail yesterday evening, the only new outbreak was the one at Limassol.

Cyprus has been under British control since 1878, when the Treaty of Berlin came into force.

Pilots Hope to Land Passengers at Nome To-morrow From Ss. Baychimo

Associated Press
Nome, Alaska, Oct. 22.—Held by fierce winter weather at the steamship Baychimo, locked in the ice pack off Point Barrow, two airplanes set on their ice runway to-day while their pilot and eight passengers of the vessel awaited a clearing sky for the flight here.

The two planes, which left here Wednesday, became separated during the flight and did not arrive at the ship until yesterday, the first coming down on the ice at about noon, and the second at 2 p.m. (5 p.m. P.S.T.) a message from the ice-bound vessel said. Both fliers spent Wednesday night "somewhere on the Arctic coast."

The message added that the weather conditions are favorable for the pilots plan to bring the remaining passengers of the ship, to Nome to-morrow.

The Baychimo's crew plans to spend the winter in a house built on the beach, about a quarter of a mile from their ship, until it is freed from the ice pack next summer.

CAPONE RULING AT WEEK-END

Chicago Judge Tells Lawyers He Will Pronounce Sentence To-morrow

Federal Building, Chicago, Oct. 22.—Sentence of Alphonse Capone for violating United States income tax laws was delayed at least one more day when Federal Judge James H. Wilkes announced at the close of legal arguments to-day: "I will dispose of this case at 10 o'clock to-morrow morning."

The announcement of the court followed long arguments on the legality of the indictments and the jury's findings. The defense again intimated the case would be taken to the Supreme Court.

As soon as the proceedings were opened this forenoon Capone's attorneys started their last-minute effort to stave off a penitentiary sentence for him.

As the big scarred gangster watched Judge Wilkes approach, he interrupted at any time and pronounced sentence, Attorney Albert P. Wink and Michael Ahern pleaded a writ of habeas corpus on five counts, but would not say at night not only the trial in which he was convicted, but also the indictment which accused Capone as an income tax evader.

PLAIN TO HIM

Attorney Pink said he thought it "so plain" that the indictments were not specific and that the verdict, finding Capone guilty on five counts, was guilty on eighteen, was inconsistent that he doubted it would be necessary to argue the point.

NEW ZEALAND TO HAVE EARLY GENERAL ELECTION

(Continued From Page 1)

Premier Forbes expressed the utmost faith in the people's judgment and said he was confident they would reject the present National Government. He would maintain the one Dominion's finances on a sound and stable basis, ensuring the maintenance of New Zealand's reputation for honor and integrity, he added.

FOR COUNTRY'S WELFARE

Mr. Forbes declared all Reform Party candidates and supporters would loyally endorse the government's decision and wholeheartedly work for the return of the government candidates.

He said the Reform Party was not in a position to take office until the situation of the parties forming the coalition would not be justified in breaking apart for the purpose of the election, he said. The party was completing the work of New Zealand above all other considerations.

EVENLY DIVIDED

The present cabinet consists of five members of the United Party and five of the Reform Party, formed in opposition. Mr. Hon. Joseph G. Coates, Reform Party leader, is the chief lieutenant of Premier Forbes, United Party leader. The National Government was formed September 22 last.

A general election had originally been scheduled for this month, but the success of Premier Forbes' efforts to gain the support of the Reform Party, and the subsequent carrying out of emergency legislation, delayed the election. Now the National Government is completing its special task and the voters will be asked to give it a new mandate.

POLLING IN 1928

The last general election in New Zealand was held in November, 1928. The result was the return of the United Party, twenty-eight Reform Party (Conservative), nineteen Labor Party (Socialist), and five Independent members of the House of Representatives.

The House of Representatives consists of eighty members, including four Maori members, elected for a term of three years. Mr. Forbes has been Prime Minister since the death of Sir Joseph Ward, veteran Liberal leader, last year.

TEN-YEAR PLAN FOR CHINA IS PROPOSED BY LEADERS

Associated Press

Washington, Oct. 22.—A ten-year industrialization plan, calling for the expenditure of \$11,000,000,000 for machinery construction alone, is being considered by the Chinese Government.

A report to the U.S. Commerce Department said the plan now being considered by the Chinese ministry is looking forward to a firmly entrenched central government which could exploit the great natural resources of the country.

The first step in the proposal would be establishment at Nanking of a school headed by Chinese engineers to train an army of highly skilled Chinese mechanics to construct machinery and install it in government factories.

The plan embraces the development of harbors, canals, railways and roads, the opening of the vast undeveloped areas of northwest China and the setting up of agricultural and pastoral industries throughout the republic.

The development project would cover a wide range of industrial activities, designed to produce iron, steel, brick, cement, locomotives, ships, coal tar, chemicals and electricity.

RADIO APPEAL TO BE HEARD

Montreal, Oct. 21.—Judgment rendered by the Privy Council in London, giving jurisdiction to the Dominion Government in the matter of all aviation in Canada, will not deter the Quebec Government from its appeal to the Privy Council in the matter of radio control, Premier Taschereau said here to-day.

"Alme Geoffrion, who is to present our case to the Council, will proceed to London in a few days, where the matter is to come up soon," Mr. Taschereau said.

EVACUATION DATE DELAYS JAPAN AND CHINA SETTLEMENT

(Continued From Page 1)

Fourth, he recommended the Chinese and Japanese governments keep the League Council informed of the developments in the negotiations between them.

Fifth, he recommended the president of the Council be authorized to take such measures as he might think necessary to insure the execution of the Japanese proposal, and to call the Council into meeting at any time for the purpose of proceeding with a fresh examination of the situation.

Tokio, Oct. 22.—Kenshiro Yoshizawa, Japanese delegate to the League of Nations Council at Geneva, was instructed by the government to-day to inform the Council Japan would do its best to complete withdrawal of troops from outside the railway zone in South Manchuria within three weeks if China would agree to cease alleged anti-Japanese agitation there.

It was emphasized here, however, that although Japan was conditionally prepared to make a concession over the question of withdrawal of troops from Manchuria, it would not be dependent on China's willingness and ability to guarantee and maintain peace and order after the withdrawal.

It was also emphasized these instructions to Ambassador Yoshizawa did not represent a new formula, but were merely a further concession to the first of three formulas drafted by Sir Eric Drummond of Great Britain.

These instructions, however, which it was hoped would reach China in time for to-day's Council session, were looked on here as an important concession on Japan's part because she hitherto has refused to consider any question of a time limit.

HINT FROM TOKIO

Tokio, Oct. 22.—A veiled hint Japan might withdraw from the League of Nations in the event the Geneva body seeks to force the issue in the Sino-Japanese controversy was voiced here to-day by a high government official in disapproving the League Council's formula for settlement of the trouble in Manchuria.

"It is too early to talk of Japan's withdrawal from the League," the official said, "but Geneva must understand the Manchurian situation is almost a case of life or death with Japan. The League appears altogether too eager to rush Japan into acceptance in a very complicated matter. Japan is in no hurry and can well afford to wait."

Japan objects particularly to the clause in the League's programme calling for evacuation of Manchuria by her troops not later than November 16. The clause also appears too eager to rush Japan into acceptance in a very complicated matter. Japan is in no hurry and can well afford to wait."

BACK AT BEGINNING

"It appears the League, in its effort to solve the Manchurian problem, is back where it started," a Foreign Office spokesman declared.

Tokio views the proposal, which was offered by Aristide Briand, chairman of the League Council, and brought to the Council by the Japanese, as a concession to the League Council, but into consideration too many of China's proposals at the cost of Japan."

"It is unacceptable on the face of it," the spokesman asserted. "If put to vote at Geneva, Japan naturally would oppose it. If passed over Japan's veto, Tokyo would make it a constitutional issue and would not give up as she has in the case of the United States observer."

LAVAL AND HOOVER TALK

(Continued From Page 1)

ECONOMIC STABILITY

Mr. Laval, in his first interview with United States newspapermen, said the conversations would cover all the subjects relating to the problems of the two countries, the economic situation for the world in the background, and his address immediately after he had landed, he said his first consideration in all his discussions would be the security of France.

NO GUARANTEE

Officials here have shown plainly they will not entertain proposals looking to United States participation in any agreement which would force them into guaranteeing the security of a European nation. All such agreements reached heretofore by this country's diplomats have been rejected by the Senate.

It has been made equally clear the United States cannot be a party to pacts contemplating boycotts or blockades to support for one nation against another.

DEBT QUESTION

The question of war debt and reparation adjustments doubtless will come to the forefront as the conversations progress. Administration officials were consistent in forecasting the United States attitude, but declared freely some reorganization of the tangled war debt situation would have to be effected.

Mr. Hoover has maintained for months that one of the detriments to world economic recovery was the steadily mounting cost of armaments. It is a subject on which he has expressed himself repeatedly and he will unquestionably use all his persuasive powers to impress his views on the French Premier.

Since they are holders of over half the world's gold, the two statesmen will also discuss the matter of gold distribution and its economic ramifications a paramount question for discussion.

The first conference was started by Mr. Hoover and Premier Laval late this afternoon.

Furs Are: Caracul, Opossum, Beaver, Mink, Marmot, Sable, Wolf, Southern Fox, etc.

FINAL PLAN FOR CITY BEAUTIFUL

(Continued From Page 1)

INNER HARBOR TO OUTER DOCKS

Replace block pavement on Belleville Street with asphalt. Cut back lot at Pender's Paint Factory and remove logs on Dallas Road near the old Dallas Hotel, at Niagara and Montreal Streets.

Boulevard and plant with suitable shrubs and trees the water frontage from the Canadian Pacific Railway docks to the Outer Docks, similar to Ottawa Driveway along the Rideau Canal.

Extend the boulevard from the Outer Wharf along the south side of Dallas Road to the British Columbia Hotel, near the breakwater. Construct sidewalk the full width between the curb and the seawall on Dallas Road, east of the breakwater, an steps on both ends of the seawall.

Construct groins on the beach below the seawall, which would be successful in producing a wider sandy beach along the full length of the seawall. The beach being naturally shallow and sandy.

Widen the shore end of the breakwater and build steps down to the granite rocks at the end of the breakwater.

Remove all bill boards.

SEAWALL TO COOK STREET

Construct wider path along the Dallas Road, east of the breakwater, paths to beach and grade the worst spots in this area.

Remove undesirable brush and trees, but leave the whole in its natural state as near as possible.

Investigate the possibility of a salt water swimming pool in Horseshoe Bay, by means of a retaining wall between points, and provide zig-zag paths to beach and leading to bathing pool.

BEACON HILL PARK

Provide an adequate water system throughout the whole of the park and waterfront.

Construct a stream connecting the two lakes, and a stream from the outlet of the lake to Heywood Avenue, with pools, falls, bog gardens, wading canal, etc.

Construct a rose garden opposite Hampton Court on Cook Street, rockeries, perennial borders, native plant garden and a spring flower garden at suitable locations.

Provide a dignified and proper approach to the park at the corner of Douglas and Blanshard Streets.

Fill Goodacre Lake to uniform depth of not more than four feet deep. This would insure greater safety for skaters, a faster change of water and cleaner water.

Construct a battery of good public tennis courts, and provide model yacht pond for children.

Reduce amount of road space for automobiles and provide sidewalk space along roads.

CLOVER POINT AREA

Extend sewer to deep water and dump into sea garbage lying at Clover Point area.

Cut bad log-jams Dallas Road turns into Ross Bay, east of Moss Street. Remove most of the broom, fill in the trenches and grade where necessary, building paths to the beach.

PLANT TOP OF BANK IN CEMETERY WITH SUITABLE TREES.

ROSS BAY

Construct swimming pool at Little Ross Bay at foot of St. Charles Street, and provide groins to enlarge beach area along the seawall.

Construct steps to the beach at the west end of the seawall and plant embankment at that end, as well as repainting the old steps.

Continue the waterfront walk to link up with the esplanade along the Ross Bay waterfront.

WATERFRONT IN GENERAL

Provide drinking fountains, seats, wind shelters, sanitary conveniences and bathhouses along waterfront.

Investigate possibility of granting concessions for swimming suits, towels, lockers, refreshments and heating, in return for care of bathhouses and sanitary conveniences.

Provide for the maintenance of all new construction work, particularly undertakings of a horticultural nature, involving the care of grass and new planting material, etc.

B.C. DOUGLAS FIR IN GLASGOW HOMES SCHEME

(Continued From Page 1)

merchantable grade, sawn in the British Empire ready for use.

CALL FOR TENDERS

Specifications will apply first to a group of 100 houses for which tenders are to be invited in less than a month. The Highland capital of Inverness also has this matter under consideration and it is anticipated other Scottish cities will also follow the example of Glasgow.

Five or six years ago it was estimated that Glasgow, which has a population of 600,000, required about 70,000 new houses to accommodate the growing population

ITALY TO HAVE BREAD DISPLAYS

Rome, Oct. 23.—Premier Mussolini is taking an interest in a widespread complaint that the bread here is not all it should be.

As a result, breads of all nations are

Here's good news

lessens shaving irritation

MEN with tender skin discovered this luxury shave. They found that after it their faces felt cool and smooth, and that their razors never pulled. They passed the idea on to their friends, and now there's quite a group of "Vaseline" shavers. They are not all men with tender skins and tough beards, either. ANY man's face, normal or sensitive, shows its gratitude for this simple, soothing treatment.

Wouldn't you like to join this comfort club? Membership is open. All you have to do is spread a thin film of "Vaseline" Petroleum Jelly over the beard before you shave. Lather as usual. Your razor strokes quicker and closer and your face looks and feels better. The "Vaseline" Jelly heals any little nicks or scratches, too, and softens dry or chapped skin.

Try it once and you'll never shave without "Vaseline" Jelly. You can buy it in jars or tubes at all good drug stores. Chesbrough Manufacturing Company, Consolidated, 5520 Chabot Avenue, Montreal, Canada.

to be gathered to show bakers and their customers how good bread can be. Besides, Il Duce has approved, as an educational feature, a bakers' association plan to hold four trade shows next summer, one for bakers' machinery at Bologna, a technical congress and an international competitive bread display here, and a bread baking contest at Bologna.

HENRY TOURS NORTH ONTARIO

Cochrane, Ont., Oct. 23.—Returning to Cochrane yesterday evening after a short visit to Moose Factory on the shore of James Bay, Premier Henry expressed unbounded faith and optimism in the future of the north at an informal gathering given in his honor by the mayor and residents of this centre.

Commenting on his trip to the northern airport, the Ontario Premier expressed the belief there was a bright future in store for the territory between Cochrane and Moose Factory.

After spending the night here, Premier Henry and his party left for Timmins.

\$35 Allowance For Your Old RANGE

If you trade it in this week on a new Semi-detached "Burbank." See us to-day.

MANY IN U.S. WANT WORK IN SOVIET RUSSIA

New York, Oct. 23.—The Amtorg Trading Corporation, the commercial agency of Soviet Russia, says 100,000 persons here have applied for 6,000 jobs open in Russia.

Congressman Of New Hampshire Dies in New York

New York, Oct. 23.—Congressman Fletcher Hale of New Hampshire, died yesterday evening in the Brooklyn naval hospital, where he had been taken late yesterday from the liner President Harding on his return from Europe.

Mr. Hale, who was forty-eight, became seriously ill four days ago. On advice of the ship's surgeon, the liner increased its speed from eighteen to twenty-one knots an hour to reach New York. His illness was described as pneumonia and cerebral embolism.

TELEPHOTO TEST FROM VATICAN

Vatican City, Oct. 23.—Pope Pius XI will inaugurate a radio telephoto service from the Vatican broadcasting station to-morrow when a picture of himself and a group of church officials will be transmitted to Paris.

BIG WORKS PLANS MADE IN ONTARIO

Toronto, Oct. 23.—A municipal works programme involving expenditure of more than \$12,000,000 and embracing 190 municipalities in Ontario has been approved by the provincial government. Hon. W. H. Price, Attorney-General, yesterday said the municipalities would pay 80 per cent of the cost of these works, the province 25 per cent and the Dominion 25 per cent, if approval was secured at Ottawa.

SMALL ST. LOUIS BANK CLOSED

St. Louis, Oct. 23.—The Fidelity Bank and Trust Company of St. Louis, with a capital stock of \$200,000, was ordered closed last night by its board of directors. A statement said the action was taken to protect depositors. The bank was placed in the hands of the state finance department.

The last statement of the bank showed resources of \$1,854,489 and deposits of \$1,036,977.

Rowell Says Disarmament Must Succeed

Atlanta, Ga., Oct. 23.—Unless the approaching disarmament conference at Geneva meets the sentiment of the German people and other nations to limit armaments, "it may be revolution or it may be war," Hon. N. W. Rowell, K.C., of Toronto, told the world convocation of Methodists here yesterday evening.

BOARD TO RULE ON LULU ISLAND CONNECTIONS

Vancouver, Oct. 23.—Decision on the two applications for a connection with the Vancouver and Lulu Island Railway by the Canadian National Railway was reserved by the Board of Railway Commissioners of Canada here late yesterday afternoon.

The applications were supported by the North Fraser Harbor Commissioners, on city of Vancouver, Richmond, Burnaby, boards of trade of cities and municipalities interested, and a number of industries in the area.

In closing argument, J. E. McMullen, Canadian Pacific Railway counsel, outlined the history of the Lulu Island Railway, showing the development of the area that had taken place since it was built, and said that all interests and purposes it was C.P.R. being operated by the B.C. Electric Railway on the C.P.R.'s behalf.

"The capital expenditure and conservation of the revenues of the Canadian Pacific Railway should be carefully watched in this case," he said.

"This should also be the case in the Canadian National Railway," commented Hon. C. F. Fullerton, chairman of the commission.

A. Fraser, counsel for the Canadian National Railway, stated it was only fair for one railway to be able to compete in another's territory on a fair basis, and quoted at some length section three of the Railway Act.

POLICEMAN INJURED

Edmonton, Oct. 23.—Constable J. Alex Keating of the Edmonton police force is in a hospital seriously injured. An auto he was driving was struck broadside on a level crossing by a C.P.R. switch engine yesterday.

PREMIER AT TOMB

Washington, Oct. 23.—Premier Laval of France paid homage to-day at the shrine of the United States unknown soldier who died fighting in the Premier's native land.

STEVENS TALKS OF TRADE TREND

Minister Addresses Quebec Manufacturers at Banquet in Montreal

Montreal, Oct. 23.—"A genuine effort to stimulate internal business is liable to bring more definite results than efforts spent in external trade," said Hon. H. H. Stevens, Minister of Trade and Commerce, in an address here yesterday evening at a banquet held by the Quebec division of the Canadian Manufacturers' Association.

The minister pointed to the year of 1929, one of high prices, in which total production in this country had been disposed of on the basis of 20 per cent for internal trade and 80 per cent for external trade. An increase of 1 per cent in internal trade would mean an increase of \$50,000,000, whereas a 1 per cent increase in external trade would mean only \$2,000,000.

"I am not seeking to diminish the need for expanding export trade, but what I am seeking to impress on your minds is the opportunity you have of making a fairly rapid expansion of the business of the country by stimulating internal trade," said Mr. Stevens.

EIGHT MONTHS COMPARED

"In the matter of exports we find for the first eight months of 1930 and 1931 that the drop this year is 28.6 per cent," he said. "It sounds serious, nearly a third, but on the comparison of prices, as between the two years, we find the drop would be only 13.3 per cent."

Mr. Stevens called attention to the new process for building, and remarked many parts of the main cities of Canada would have to be rebuilt. He had noted of late the trend in that direction in Montreal.

The opportunity of building should be seized now during depressed conditions, he said, and the courage and will of the country at large. He quoted figures to support his contention as to low prices of building materials.

WHEAT OUTLOOK

Referring to wheat, Mr. Stevens reviewed figures of production and declared: "After two years of depression in wheat it is my firm conviction we are entering on an era of reasonable optimism. We must, of course, remember the purchasing power of the buying countries is somewhat weak, and we, therefore, cannot expect wheat to jump rapidly, but we may reasonably expect a substantial advance in the wheat market, which will be a very encouraging thing for Canada."

Allan M. Mitchell, chairman of the Quebec division of the Canadian Manufacturers' Association, presided, flanked by W. H. Miner of Granby, Que., and J. E. McMullen of Montreal. Those at the head of the table were E. W. Beatty, K.C., Norman Davies, Mayor Camille Houde of Montreal and others.

Steele Again Wins Short Story Award

New York, Oct. 23.—Wilbur Daniel Steele, who has won more than a half-dozen annual awards in the O. Henry memorial contests for American short stories, has been named winner of the 1931 award.

Because he won the \$500 first prize award last year, he is ineligible for the cash award now, but retains first place. The money will go to John D. Swain, as author of the second best story. Mary Hastings Bradley got the third award. Oliver Lafarge, Pulitzer prize winner, was given a special prize of \$100.

Honorable mention went to Katherine Brush, Mary Ellen Chase, Booth Tarkington, William Faulkner and Colin Clements.

LETTER FROM HUNTED WOMAN BECOMES PUBLIC

Darlington, Ind., Oct. 23.—A letter written October 4 by Mrs. Winnie Ruth Judd, accused of slaying two women friends in Phoenix, Arizona, and packing the bodies in trunks and suitcases and shipping them by train to Los Angeles, was revealed here today. The letter was mailed to a Darlington physician and asked the latter "take good care of my father."

The father is Rev. W. H. McKinnell, who had expressed complete faith that his daughter was not guilty of the murder charges. He declared yesterday evening, however, that he had lost the faith; he had held, and that should his daughter return home he would surrender her to the authorities.

In the letter written to the physician Mrs. Judd expressed deep regret for her father and promised to pay for any expenses incurred in caring for him.

North Vancouver Votes For Beer Sale By Glass

North Vancouver, Oct. 23.—By a narrow majority North Vancouver citizens yesterday voted in favor of beer by the glass. Final figures were 956 for and 922 against. There were forty ballots rejected and two spoiled. To-day it was said the official count might alter the figures.

NEW COMMANDER FOR REGIMENT

Ottawa, Oct. 23.—Major M. D. Theobald has been promoted to the rank of lieutenant-colonel and to command the Westminster Regiment, with regimental headquarters at New Westminster, B.C., it is announced by the Department of National Defence.

WE LOSE A MILLION

THE BRITISH COLUMBIA NEWSPRINT industry will lose orders aggregating a million dollars a year in consequence of the decision of the newspapers of New Zealand to purchase two-thirds of their paper requirements in Great Britain. Formerly, this commodity was purchased in British Columbia.

The loss of this business is declared by a dispatch from the capital of New Zealand to be another sequel to the Canadian fiscal policy of penalizing New Zealand's exports to this country almost to the point of total prohibition. We already have lost our market there for motor cars amounting to some millions of dollars, involving an increase in our unemployment figures. Now, there inevitably must be a further increase in unemployment in this province in consequence of the loss of a million dollars worth of newsprint business.

Not only has a once promising trade between these two dominions, in which Canada had a very favorable balance, been destroyed by Mr. Bennett's "blasting" policy, but the relations between them in other respects have become embittered. And the irony of this situation lies in the fact that the butter producers in Canada, for whom this sacrifice was ordered, are worse off to-day than they were when New Zealand butter imports were at their highest.

Economically, Canada virtually has ceased to be part of the empire. Canada First has become Canada Alone. While the Premier and his ministers are trying to solve our economic problems by talk, the mill-stone of their fanatical policies is grinding our outside trade into atoms. What is the use of Mr. Bennett telling us that we are being scourged by Providence because we have discarded the old-fashioned providential virtues, when he is deliberately destroying our markets abroad? It is Mr. Bennett, not Providence, that is scourging us, and in that process, whatever may be his intentions, he is representing an agency the reverse of providential.

AN IMPORTANT MISSION

FOR THE NEXT DAY OR SO MUCH ATTENTION will be directed toward the conversations between the President of the United States and Premier Laval of France, who was warmly welcomed on his arrival in New York yesterday, the object of the important meeting being a survey of what is broadly described as the "general world situation."

It is reported that Mr. Hoover and Mr. Laval have arranged their discussion under four heads: Disarmament, Intergovernmental Debts, National Security, and Economic Stabilization. The nature and scope of these topics suggest that the two statesmen have given themselves a great deal of latitude and their conclusions naturally will be awaited with considerable interest in the chancelleries of the world. This is not to say that the outcome of Premier Laval's mission will be an ultimatum telling the rest of the nations what they must or must not do. But it will have to be admitted that, having three-fifths of the world's gold supply between them, the official voice of the United States and France at this stage of the world's progress can not be ignored.

On the question of disarmament France has adopted a somewhat stubborn attitude. Successive governments have demanded security by some sort of agreement before the republic will consent to any very material reduction of her fighting services. In view of historical fact, this is not altogether an unnatural stand for France to take. But fair-minded critics point to the fact that the new spirit which is abroad in the world should be sufficient security for any nation which takes a bold lead and does away with a large part of what, after all, is the principal cause of war—armaments. Perhaps Mr. Hoover, who has made it clear that one of the chief conditions upon which the United States government would consider complete revision of international debts would be a substantial reduction in war budgets, may be able to mix a few New World ideas with the adamant Old World attitude which France so far has seemed unwilling to change.

It is obvious, of course, that disarmament, international debts, and national security are inter-related subjects; at least, that undoubtedly will be President Hoover's contention. As far as economic stabilization involves the possession of gold, the United States and France are in a position to lead a definite movement, either for a better distribution of the precious metal or some sort of currency reform, or both. It has been suggested that an international conference should be called to deal with these. Perhaps this will be the outcome of the conference between the representatives of the two nations holding the biggest money-bags. In any event, the visit of Premier Laval to the neighboring republic is certain to produce beneficial results.

TRAFFIC FATALITIES

HARD TIMES MAY HAVE LESSENED the number of motorists in the United States, but the number of traffic fatalities continues to go up.

Figures compiled by the Travelers Insurance Company show that more than 24,000 people were killed in automobile accidents in the United States during the first nine months of this year—the largest number ever recorded for a similar period.

If the rate is continued until the end of December, the total fatality list for the nation in 1931 will be around 33,000. The list in Canada is at least as great in proportion to population.

A more damning indictment of present methods of handling automobile traffic would be hard to find. The worst of it is that, as usual, we shall probably talk a great deal about it—and do absolutely nothing. And next year the death list will be higher than ever.

ON GROWING OLD

THE OLD LADY IN NEW YORK who clung to \$400,000 worth of old paper money, and protested bitterly when her relatives finally put it in a bank for her and got a nurse to look after her, is a picturesque illustration of the way in which a rapidly-moving world can slip out from under one's feet.

What happened to her is more or less what happens to many of us as we grow old. The difference is that in her case everything was carried a little farther than usual. Otherwise her story is simply the same pathetic old human story with which every generation has been familiar.

To grow old is not a tragedy. There are people who find old age the finest time of all life; a sort of Indian summer, in which serenity and peace put a mellow glow about the harsh outlines of the world and reconcile one to being out of things. But not all of us can manage in that way.

Instead, we let the tide of things go on without us. At some point along life's journey we permit our roots to go down too far. We become fixed, we harden into a form that cannot be changed; and presently—like this old lady in New York—we find that we are on the shelf, helplessly out of adjustment with the currents of to-day.

And yet, even when that happens, the old person is not entirely an object of pity. For the very old seem to make up for their withdrawal from the world by re-creating the world that used to be. They have their memories, they are intimate with the shadows of men and events that passed long ago; and very often—as in this case—they are content with them.

This New York lady had been a society belle when Abraham Lincoln was president, she had danced with that debonair Prince of Wales who was to reign as Edward VII, she had ridden down Fifth Avenue behind high-stepping horses decades before the street saw its first automobile; and her petulant "I can take care of myself" seems simply to reflect her feeling that the vanished world, to which she can retire as she pleases, is on the whole better than the real one.

When we witness a thing of this kind our first emotion is one of pity. "To be very old, to be out of touch with things—is this pathetic? Well, very likely it is; yet it is hard to keep from feeling that this old lady, and many more like her, do not feel the need of any sympathy at all.

VIENNA AND ITS BIRDS

THERE COMES A PRETTY STORY from Vienna which tells us that the swallows of that neighborhood of southern Europe have been found hungry and exhausted on the farms and on the buildings round about that once gay capital of the Hapsburg empire. But the Viennese Society for the Protection of Birds went to the rescue. The weather had been very bad; and these graceful feathered creatures allowed themselves to be taken by the rural population to an air-drome whence they were "flown" to Venice. From that city of romance they continued their journey south, and if they could have expressed themselves, it would have made another pretty story.

There is a moral in this. Mankind is grappling with problems of great magnitude, problems which seem to be baffling those whom the man in the street considers to be experts. Yet, in spite of it all, there are people in Vienna—and, of course, elsewhere—who are able to share a kindly thought for the swallow. Manifestations of this kind are much surer indications of the best human progress than the erection of skyscrapers.

A DESERVING CAUSE

THE ADMIRABLE SERVICE THAT IS being rendered by the Children's Aid Society is sufficiently known to the public to assure a generous response to the appeal for assistance which will be made on behalf of the institution to-morrow. The home conducted by this fine organization is looking after some thirty-five boys and girls, who otherwise might develop into social delinquents; it is furnishing them with such surroundings as will keep them healthy and contented, and such training and inspiration as will make useful citizens of them. Our youth, no matter in what social sphere it may be, is our most important asset and anything that is done to promote its welfare on a sound, wholesome basis is bound to produce returns of incalculable value. The Children's Aid Society deserves whole-hearted support, and we are confident will receive it.

WHAT OTHER PAPERS SAY

STRAIGHT TALK
The Halifax Herald

Here is one economist talking in language the public can understand.

Our own H. K. Sandwell declares that "gold is no longer a proper measure of value for money"—that it is time to realize that the gold standard is of no real utility in commercial life.

Plain, ordinary folk are likely to agree, when they see the United States "with its barns full of gold," and 5,600,000 unemployed in the country; and Canada on the gold standard, with its dollar below 90 in New York.

WHAT WILL SHE BRING BACK?
The Ottawa Citizen

Canadians will have read with pride and gratification of the successful first voyage of the St. Farnworth from Churchill to London with a cargo of wheat. It is satisfactory to know that the journey proved so uneventful. This should augur well for the safety of successive seasons of grain carrying from the new prairie port to Great Britain.

The master of the Farnworth spoke of the voyage being his only trip on the route this season, and, of course, such a history-making run is a special affair, not subject to the usual considerations of cargo vessels. "The Farnworth" will no doubt go back to her old task of carrying coals to Newcastle or picking up cargo as she did before, in the endeavor to make her voyaging a profit to her owners.

But when, next season, at the breaking up of the ice, other ships laden with grain set out from Hudson Bay, the owners will have to be assured of return cargo. It will be interesting to know that these return cargoes will be from Great Britain, the country that must import, to Canada, the country whose desire it is to be wholly self-supporting, and whose present policy is to exclude British imports.

A THOUGHT

By faith the walls of Jericho fell down, after they were compassed about seven days.—Hebrews xi 30.
The highest order that was ever instituted on earth is the order of faith.—Henry Ward Beecher.

Loose Ends

Of course it's going to be — and, of course the old lady is right in advocating paper ones — and, of course, the government knows its classics.

By H. B. W.

AFTER THE Indians had predicted a hard, cold winter, and Bill Potts, our wood man, had predicted a specially hard, cold winter, now, behold, the weather experts are predicting an easy, mild winter. This is absurd. What is the use of predicting anything but a hard, cold winter? Who is interested in an easy, mild winter? Besides, what of the poor Indians? They never get a chance to break into the newspapers at all now, always except when they put a cold, cold winter with snow two squares deep. When heard of an Indian predicting an easy, mild winter? The thing is not done, that is all. Then again, what is to happen to Bill Potts, our wood man? If it is going to be an easy, mild winter? How is he going to sell people more wood than they need, as he has been doing now for forty years, on the strength of his long, cold winter? And what will there be left for me to predict in this column if these experts persist? What possible interest could it be for me to predict that it would be a mild, easy winter; that there would be no snow or ice? The newspapers might as well print large headlines asserting that no murders had occurred to-day, or course it is going to be a hard, cold winter. It is always going to be at this time of the year.

PEOPLE HAVE curious ideas about the weather, and it is surprising how freely they will talk about it. So long as it concerns the weather they will reveal their most intimate secrets. Thus this morning I picked up a lady at the corner—she was an old lady and weighed 300 pounds—and drove her into town. "Ye know," said this lady, "it ain't the temperature of this climate what makes you cold. Oh, no! It's the damp, sir, the damp. Why, when I was in Alberta I never wore anything but cotton ones. When I come down here to this mild climate whatsup suppose I had to do? I had to go out and buy a whole set of woolen ones, that's what I did to. An' I put them woolen ones on in September and I guess I'll be wearin' 'em 'till next June. Unless you got woolen ones in this climate you're a-shiverin' all the time. What these gals does to keep warm in alk ones I dunno. My advice to you, young man, is to wear woolen ones, wear woolen ones. Specially if it's a mild winter. What could I say to her appeal? I could only answer that I was sure it would be a hard, cold winter, when cotton ones might be quite all right. "Wear woolen ones, sir," she repeated as she disembarked and rolled away, "it's the damp as goes through the cotton ones."

MR. HENDRIK VAN LOON, the distinguished historian, has recently been analyzing papal encyclicals and their condemnation of birth control. He sums up his objections by saying that "we cannot survive in a world in which both fathers and infants multiply ad lib." From this it appears that we must either control the production of children or the production of machinery since, with too many machines, there will not be enough work to support our population. Mr. Van Loon, it seems to me, need not worry. The birthrate of this continent shows that we are reducing the increase of mankind at a remarkable rate, so much so, indeed, that experts are confident that the total population of the United States will start to decline before 3000 A.D. But there is no control of machinery. It continues to multiply ad lib. It is quite possible to prove by statistics that, at the present rate, we shall reach a point where the world will be full of flippers and no men at all.

BUT I HAVE hopes that this will be averted. I have hopes that before the present system reaches its full flower somebody will do something about it; that we shall discover that machinery can be made to support life instead of destroying it. But at the moment I must confess that nobody seems to be doing anything about it. Not only is the success of the flapper failing to support life by increasing unemployment, but it is extinguishing life directly as well. In the first nine months of this year 24,000 people were killed by automobiles in the United States, the largest toll on record. If this goes on, the problem of the flapper versus the man will settle itself rapidly. We have already started to reduce our families to make way for the machine, and now the machine is helping magnificently by reducing those few who are allowed into the world.

ONE IS ALWAYS charmed to witness erudition in high places, and culture among our statesmen. I was gratified to note a few days ago, therefore, that Premier Toinie had been quoting from the English classics and from British parliamentary history with a facility and a familiarity which, with greater respect, rather surprised me. To show that there had been distinguished pessimists before in British history, that someone had always been talking blue ruin which never came, the premier quoted in turn Pitt, Wilberforce, Grey, Wellington and Disraeli, all of whom confessed to grave doubts about the future. It was really a formidable and imposing list, but I was less interested in the quotations than in the fact that these records of history were evidently so familiar in the realms of provincial statecraft. I mean I had hardly realized the aura of learning and culture which envi-

FOR YOUR FURNACE

KIRK'S COMOX COAL

Recently hangs heavy over the Executive Chamber across the Bay.

WELL, TO-DAY I picked up a dispatch from London, England, and to my great satisfaction as a loyal British Columbian I found, precisely the same quotations which the premier had used in his speech here. They were—Pitt, Wilberforce, Grey, Wellington and Disraeli with their predictions of dire events which had never occurred. It is incredible, of course, that two men could have dug up these same classical allusions simultaneously. The only possibility is that, when the government of British Columbia unearthed them here from the depths of its profound learning, they were copied by lesser minds and spread about the whole world. Evidently they have just reached England, a British Columbia export, of which we may all be proud.

Alberni

Special to The Times

Alberni, Oct. 23.—Miss Cecilia Heath, R.N., of Bellingham, is the guest of her mother, Mrs. A. A. Lynn.

Mr. and Mrs. J. W. Dalton have as their house guest Mrs. F. Beaudette of Nanaimo.

After spending the summer months at Victoria, Mrs. W. Littleton Sr. has returned to her home here.

Mrs. Floyd Byles is visiting at Vancouver and Seattle for the next week.

Twenty-five Years Ago To-day

THE VICTORIA DAILY TIMES
OCTOBER 23, 1906
From The Times Files

The liquor license by-law was again turned down by the City Council at last night's meeting, when a motion to read it a second time was greeted with a similar performance as that of the last meeting, it being lost on a tie vote.

A meeting of the manufacturing committee of the Victoria Development and Tourist Association was held yesterday morning at the rooms, Fort Street, when the extension and the improvement of the permanent exhibit was discussed at length. It was stated by Secretary Cuthbert that the display always attracted the attention of visitors and generally elicited favorable comment.

Action in regard to the Susan Maru, the Japanese schooner which is being held by the customs officials on a charge of breaking the customs regulations, is being delayed by the authorities pending the arrival of the Japanese counsel from Vancouver.

Work on the construction of the new survey steamer, which the Dominion Government has ordered for service on the Pacific Coast, will commence in eight days or a fortnight. Plans and specifications are on hand for this vessel, but as she is to be built entirely of steel it has taken some time in which to secure the material.

Weather Forecast—Victoria and vicinity: Easterly and southerly winds, unsettled and mild with rain.

The wood dealers in the city have decided to make an advance in the price of wood to the consumers. The new prices will be \$4.50 for long wood, \$6.00 for wood cut into stove lengths and split, and \$5.50 for blocks without splitting.

Bilious

Bilious, constipated? Take DR. NATURE'S REMEDY—tonic—the mild, safe, all-vegetable laxative. You'll feel free in the morning. Promptly and pleasantly ride the system of the bowel poisons that cause headache, dizziness, etc.

WOLSEY UNDERWEAR

The House of Wolsey was founded about 1755. The Wolsey factories at Leicester stand near the ruins of Leicester Abbey where Cardinal Wolsey died. Because of this historical interest, the name and portrait of the famous Cardinal were adopted as the Wolsey trade mark.

Its cardinal virtue is

COMFORT!

MEN who swore they would never wear an all-wool undergarment are wearing Wolsey—and liking it.

For the cardinal virtue of Wolsey is comfort. It is not a burden upon the body but a joy! Well-cut. Beautifully tailored. Ready to humour your every whim in body movement. Guaranteed unshrinkable. Any Wolsey undergarment in which shrinkage occurs will be replaced gratis.

Step into any up-to-date store and take a suit of Wolsey between your hands. Feel it. Examine it closely. We venture to predict that you'll wear it,—and have real comfort.

Wolsey also offer a very fine line of socks, gloves, sweater coats, sportswear, golf hose, etc. Made to look and wear well.

WOLSEY UNDERWEAR

Made by Wolsey Limited, Leicester, England

DUNLOP HEAD IS OPTIMISTIC

Tire Company Manager Declares World Now on Upward Trend at Convention

E. C. MARTIN

"I do not believe that there is any doubt but what we are on the upward trend toward good times," stated E. C. Martin, general sales manager of the Dunlop Tire and Rubber Company, at the conclusion of a three-day western sales convention just concluded in Vancouver.

Mr. Martin was accompanied from Winnipeg by H. H. Ross, western sales manager, G. H. Tiernan, the B.C. manager, convened the assembly. Mr. Martin based his prophecy on financial signals that have been backward in appearance up until now, and he made particular reference to the strengthening of the wheat market. "We have great faith in the future of the west, and this faith has been strengthened after the recent meeting here when our business has shown increases almost without exception. During the trip, I have been particularly impressed with the energy of people in the west, and this augurs well for the future," concluded Mr. Martin.

SEEDERS USED DUNLOP TIRES
Many interesting facts were brought to light at the conference. Everyone of the sixty-one world automobile records for speed and endurance in 1931, were established on Dunlop tires, and many glowing tributes were paid to the Dunlop Company. A co-operative plan was announced whereby the Canadian company could keep in touch with Dunlop related companies in England, United States, Germany, France and Australia. Every available use will be made of the experience and research work in the laboratories of each of these Dunlop companies to permit the Canadian plan to build the best passenger and commercial pneumatic tires it is possible for any company to make.

The new Dunlop cleated grip tire was the result of intensive research on the part of these specialized laboratories, and has met with splendid approval from all sources, it was stated.

Proper Way To Prepare Cocoa

"Please make me a cup of cocoa." How often have we heard this and maybe said it ourselves from the time we were children. If we knew how valuable a food cocoa is perhaps we would have said it oftener.

For the cocoa bean, from which cocoa is made, is a "vegetable egg" for nourishment, as one celebrated dietitian put it. Cocoa is richer in muscle-building qualities than meat, lean mutton or eggs. It is also a stimulant, a remover of fatigue, and a quickener of the brain and nervous force.

USE A QUALITY BRAND

The cocoa beans are roasted, shelled and ground fine; some of the cocoa butter, or fat, must be removed, as it becomes indigestible if the full natural amount is left in. However, the temptation is sometimes too great for the makers of "bargain counter" cocoa, and nearly all of the cocoa butter is removed for sale elsewhere, and such cocoa is insipid and undernourishing. It is well to buy a good brand of cocoa which will give real nourishment and that rich delicious flavor cocoa should have.

Like most people, you will have tasted cocoa that was so smooth and bland that you were glad it ranks as a health drink, and there was no need to refuse a second cup. You have also tasted grainy, thin-flavored cocoa, with a dark sediment thick in the bottom of your cup. Perhaps you were disappointed, and cocoa did not figure often in your daily diet—which was a pity.

However, perhaps your cocoa was not made properly, and even a good cocoa can be disappointing in the cup if a little care is not exercised in preparing it.

TASTES WILL VARY

Your liquid may be of milk or part milk and part water. The flavor and the nourishment will vary as you reduce the proportion of milk.

The amount of cocoa per cup may also be varied. For the child you might use all or nearly all milk, and allow one teaspoon of cocoa for the cup of liquid. This will be strong enough for some adult tastes and some occasions, but for a really rich beverage, healthful and nourishing to a degree, the amount of cocoa can be increased up to three level teaspoons (one tablespoon) per large cup.

Sweetening, too, will vary with the amount of cocoa used, as with the taste of the individual. When making cocoa for a group it is wise to sweeten moderately and pass the sugar bowl to people with a well-developed sweet tooth. Half is essential to the good cup of cocoa—just a few grains for the cup of liquid.

TWO GOOD METHODS

Put into a cup a teaspoonful of cocoa and the same quantity of sugar—mix well. Then add boiling water, stirring constantly. Add milk or cream and more sugar to taste. The better the brand of cocoa you use the more successful will this simple recipe be, because a really good cocoa is always finely ground and very soluble. To make a superfine cocoa put a teaspoonful or more of cocoa for the cups you will require, and the same quantity of water, in a saucepan. Mix thoroughly, and make sure there are no lumps. Add boiling water, stirring constantly. Place over heat and boil slowly for three minutes. Then add cream and more sugar to taste.

A teaspoonful of whipped cream on top of each cup adds a touch of distinction.

One or two cups of good cocoa and two slices of well-buttered bread make a meal that cannot easily be surpassed for nourishment, and will be economical enough to suit any purse.

Happy Valley

The annual Mallowe'en party, sponsored by the Luxton and Happy Valley Women's Institute, will be held on Saturday, October 31 and will be in the nature of a camp-fire in the Luxton

SAFE and SATISFYING

Most people at some time or other have lost money through taking a chance to make big profits. ADVERTISE IN THE VICTORIA DAILY TIMES

Strawberry Vale

The W.A. of St. Columba Church held their annual supper and concert in Strawberry Vale Hall Wednesday evening when about 200 people proved the popularity of these affairs by their attendance. The tables were attractively arranged

by the ladies and A.Y.P.A. members. Following the supper a splendid programme was rendered with Rev. F. Comley in the chair. The programme consisted of solos by Miss Bennett and Mrs. McIntosh; violin selections by G. H. Love, accompanied by Maurice Foster; solo by Miss Barr; recitations, Mrs. Hemmley; duet, Miss Barr and Mrs. McIntosh; solos by M. Stapleton and W. R. Woods; recitation, Rev. Mr. Comley. Miss Strathorne accompanied.

New B.C. Companies Get Incorporation

New B.C. companies granted incorporation at the Parliament Buildings this week are:
Adair Club of British Columbia, under Societies Act, Vancouver.
Bird & Tailing Ltd., 10,000 shares, of no par value, Vancouver.
Bolivar Hatcheries Ltd., 25,000 shares, of no par value, Vancouver.
British Columbia Horse Breeders' Association, under Societies Act, Agassiz.
Edenapple Distributors Ltd., 10,000, Penticton.
Harris Investments Ltd., 5,000 shares of no par value, Vancouver.
Kinoshita Logging Company Ltd., 25,000, Vancouver.
Loughboro Clear Cedar Company Ltd., 25,000, Vancouver.
McDermid, Miller & McDermid Ltd., 50,000, Vancouver.
New Westminster (B.C.) Dock & Forwarding Company Ltd., 100,000, New Westminster.
Vancouver Curling Club, under Societies Act, Vancouver.
Extraprovincial registration was granted to the Claude Neon Lights of Australia Ltd., with paid up capital of \$320,575, and British Columbia offices at Vancouver.

Colwood

The monthly meeting of the Colwood Women's Institute was held on Wednesday afternoon in the institute rooms. Mrs. T. W. Spencer presided. The Crippled Children's Hospital in Vancouver acknowledged a donation, and the Queen Alexandra Solarium sent thanks for twenty-six blankets. Conveners were appointed for the tea to celebrate the twenty-first anniversary of the institute on November 11. Invitations are being extended to neighboring institutes.

Mrs. R. B. Murray gave a report on the convention in Victoria. Mrs. J. Hopwood described the institute movement in Great Britain. The tea hostesses were the Misses Kelly.

Mr. and Mrs. A. G. Tyler are holidaying in Vancouver. Six tables of five hundred were in play at Wednesday evening's card party. Prize winners were Miss T. Erskine and Mrs. S. R. Moore, T. Parker and A. Harris. Next week's card party will be held on Thursday evening in place of Wednesday.

Garden City

The W.A. of Garden City United Church held a guest tea and sale of work Wednesday afternoon in the church. Mrs. Perry announced that the sum of \$22 had been realized, and expressed appreciation of the ladies' efforts.

Mrs. Scott-Burritt of Hollywood delighted the audience with several solos, other items on the programme being solos by Mrs. J. Hobden and readings by Mrs. T. A. Scott. The stalls, and those in charge, were as follows: Fancy work, Mrs. Ward; superfluities, Mrs. Smith; candy and fancy work made by the Mission Circle, who gave half of the proceeds to the ladies, in charge of Mrs. W. A. Brown.

Shirley

J. R. Terry of the poultry branch of the provincial department of agriculture, paid a visit to the district recently to inspect the poultry raised by the boys and girls from eggs supplied by the department for competition by the junior poultry club. Mr. and Mrs. Stanley Clark have returned home after spending the summer at Trail. Mr. and Mrs. D. Campbell of Willows Beach, and Mr. and Mrs. W. J. B. Geyman of Oaklands, were week-end visitors to relatives here.

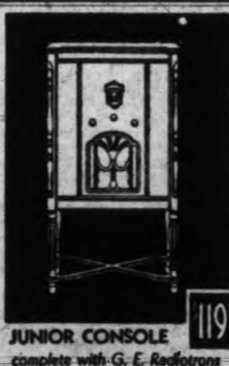

"Everyone prefers Shredded Wheat"

"Now and then I ask the members of my family if they wouldn't like to try a different breakfast cereal. But when I put it to a vote, every one from Daddy to Dorothy cries, 'give us Shredded Wheat.' No matter how many other cereals you try you will come back again to Shredded Wheat. For over thirty-five years it has held and increased a loyal public following. That's because it is so nourishing and strengthening, and can be served in so many delicious ways.

ACTRESS LOSES BREACH SUIT

New York, Oct. 23.—Vera McCord, former actress, lost her \$250,000 breach of promise suit against Maurice Rothchild of Chicago to-day.

Miss McCord had alleged that Rothchild, president of the American and Canadian Properties Company, proposed to her, but failed to keep his promise of marriage.

Rothchild testified he proposed to Miss McCord because he was attracted by her home at Little Neck, L.I., but that he was disillusioned by her admission that she often quarreled with her brother.

The case went to the jury yesterday. A sealed verdict, opened this morning, denied Miss McCord damages.

Results Commendable.
Genuine Gratitude.

Miss Miller, of Croydon, writes:—"In gratitude, I feel I must write and tell you what wonderful benefit I have derived from taking a bottle of your Carter's Little Liver Pills. Having been troubled with indigestion and sick headache for several months, a friend recommended me to try your famous pills, with the results that after the first dose I was made aware of their very real tonic value, and felt I had at last discovered a remedy which performed what it claimed to do."

Take Carter's Little Liver Pills for the complexion and constipation. All druggists 25c and 75c red pkgs. Adv.

ROYAL WEDDING IS TO-MORROW

Little Surrey Town Agog Over Nuptials of Lady Mary Cambridge

Balcombe, Eng., Oct. 23.—This little southern English town was ironing its "best bits and tucks" to-day in preparation for becoming the centre of the stage of British society to-morrow, when Lady Mary Cambridge, twenty-five-year-old niece of Queen Mary, will be married in the old church here to a commoner, Captain Abel Smith of the Royal Horse Guards.

The wedding will be one of the most important of England's 1931 season. It will be quiet, but royalty will lend it atmosphere.

The romance of the blue-eyed, blonde daughter of the Earl of Athlone, only brother of Queen Mary, and the tall, thirty-two-year-old captain, who is a member of a wealthy English banking family, began in South Africa four years ago. Captain Smith was aide to the earl when the latter was Governor-General there.

Lady Mary went to South Africa on a hunting trip in 1927 and met Captain Smith there. The party camped in uninhabited country near the margin of Lake Estabara, far from civilization. Lady Mary did most of the cooking.

She found a diamond during her stay in Africa. While she and her mother were touring the famous Lichtenburg diggings, in West Transvaal, the rough stone, weighing 4½ carats, was seen gleaming from a pile of gravel.

False reports that Lady Mary was to be engaged were circulated several years ago. One of them said she would marry the Prince of Wales, but it was quickly discredited. Another predicted her engagement to the Duke of York.

Most of Lady Mary's trousseau was made in a convent and a great deal of the work was done by crippled girl workers. Her wedding gown is of simple design, with much beautiful handwork.

MISS MUSKETT IS MARRIED

Daughter of Former Secretary at Government House Is Bride

Canadian Press
Vancouver, Oct. 23.—St. Mary's Church, Kerrisdale, was the setting for a wedding on Thursday afternoon when Margaret Jesse, daughter of Mr. and Mrs. H. J. S. Musckett, was united in marriage to Mr. Leonard Thornycroft Bellhouse of Galiano Island.

Autumn foliage and clusters of yellow and white chrysanthemums were used in decoration of the chancel. The pews reserved for the invited guests were marked with similar flowers tied with white satin ribbon. The ceremony took place at 2:30 o'clock, the marriage services of the Anglican church being performed by Rev. C. S. MacCaffin.

The marriage is of interest, not only in this city where the bride has resided for the past four years, but also in Victoria, where Mr. Musckett was for twenty-two years secretary at Government House under a succession of lieutenant-governors.

Your Baby and Mine

By MYRTLE MEYER ELDRED

BABIES' CRIES AND SQUIRMS ARE EASILY MISINTERPRETED

Babies have certain characteristic modes of action and their bundles of tricks are somewhat limited. They sneeze, yawn, cough, hiccup, squirm, gnaw their fists and cry. None of these acts need have meaning, and if it does, the meaning isn't always what the mother reads into it. Babies gnaw their fists without being hungry. They cry without wanting attention. They squirm without having pains. It is better not to give one's eyes on baby's actions and try to interpret them; better far to watch the scales which do not lie.

DIET IS LIMITED

Misreading her baby's actions is Mrs. F. E.'s trouble. She writes, "My baby weighed nine and one-fourth pounds at birth. He is now six months old and looks healthy. But he is always constipated. I have given him various physics and none of them is effective. He has orange juice twice daily, and I started cream of wheat two days ago. To-day he had a natural bowel movement. Almost continually he squirms and fusses as if he had a stomach-ache, even when I nurse him. He hasn't any teeth yet. Won't you please tell me what to do for him?"

HOW IS WEIGHT?

Procure a good baby scales and weigh the child accurately. He was a bouncer at birth and should weigh about eighteen or nineteen pounds now. I doubt if he does. It's possible for him to have a tummy ache, poor dear, if he is constantly dosed with physics. Constipation is one of its most obvious after effects. But your problem is purely one of feeding. He probably gets little or nothing from a waning breast supply, so he squirms in discomfort and futile effort.

Nurse him regularly at 6, 10, 2 and 8 o'clock in the daytime and 10 o'clock at night. After each of these nursings offer him a bottle of milk containing at least four ounces, and let him take what he wishes of it. The formula may be from twelve to fifteen ounces of boiled whole milk, one-half ounce of sugar, and boiled water to make twenty ounces.

ADDITIONAL FOODS

Continue cream of wheat twice daily along with the 10 a.m. and 6 p.m. nursings and bottles. Each day give one ounce or more of orange juice, diluted with an equal amount of water. Start egg yolk and vegetables this month and also cod liver oil. All of these foods are covered in our leaflet, "Feeding From Two to Twelve Months." I shall be happy to send you a copy if you will furnish the necessary self-addressed, stamped envelope. Send your request to Myrtle Meyer Eldred, "Your Baby and Mine" department of this newspaper.

Now for the constipation. Laxatives and physics are temporary means of forcing bowel activity, but cures for constipation. The diet should be improved and corrected until the bowels are stimulated to natural activity by the amount of residue which results from digestion. Stop giving laxatives. Watch the scales instead of focusing your eyes on baby's actions and making them tell a story. A regular and adequate gain in weight is the best index of baby's condition, not his baby actions.

To-morrow — "Carefree Days of Childhood Are Sacred to Fiction."

FINDS HUSBAND AFTER 21 YEARS

Mrs. Helen Hamilton Robeson and Rodman Robeson, the husband she met in the Los Angeles Missing Persons Bureau after she thought he had been dead since 1912, are shown here.

Shown here, Robeson, who is listed in the Boston Social Register, at first did not recognize his wife, but later said he had been divorced from her.

URGES NEED OF WOMEN LEADERS

Montreal, Oct. 23.—Judge Emily Murphy, Alberta police magistrate and juvenile court judge, received a royal welcome from the Montreal Women's Club recently at its opening meeting.

Judge Murphy declared roundly that for sixty-five years women of the Dominion were illegally kept out of the Senate. She added, "I say right away there should be an equal number of women appointed." Women leaders in all spheres were needed more to-day than ever before, she added. In a good-humored though trenchant phrase she gave her opinion on the question of women's place in public affairs and deplored in serious accents the voiceless condition of her sisters in Quebec.

"We need a great deal to the fairness and generosity of men," was one of Judge Murphy's comments. Although she belonged to a Conservative family, she was appointed police magistrate by a Liberal government, and continued to hold this office under a Farmer administration.

Speaking of the decision of the Privy Council regarding the eligibility of Canadian women for senatorships, Judge Murphy urged: "Don't give up your right to appeal!"

When women got the franchise in Canada there was no opposition from any government except that of Quebec. "I can lay my hand on my heart and say it will come to you," she asserted.

The question of whether this civilization is to disappear as others have done before it, next occupied Judge Murphy's attention. She felt that its preservation depended largely on the efforts of women who in this country own nearly 80 per cent of the capital and do 85 per cent of the spending, and who therefore constitute a 900,000 majority in voting power.

"If England leaves India to-day, there will be no white race left in the Orient," was one of the comments made. "We want women leaders to-day as never before; leaders who are not afraid of being called names, and who are willing to go out and fight. I think women can save civilization. Peace cannot be left to the world's diplomats or politicians," Judge Murphy said.

GIRL GUIDES AND BROWNIES ACTIVE

Companies and Packs Report to Association; Progress Shown

Activities of the various Girl Guide companies and Brownie packs were submitted by their respective leaders at the quarterly meeting of the Local Association of Girl Guides as follows:

VICTORIA WEST DISTRICT

First Ranger Company—Miss A. Stewart, captain: The company is rather larger than is convenient for ranger work, but the spirit is splendid and good fellowship predominates. In addition to the camps, three supper hikes and the annual canoe hike up the Gorge were enjoyed. Scholarships at Victoria College were won by Pat Johnson and Betty Dickson. Miss Stewart has just been awarded one of the government scholarships on entering college. Nineteen badges were won at the last examination. The resignation of Miss McLaren, lieutenant, came as a sad loss to all the company. Thanks were due to Mrs. B. Scott-Moncrieff, for filling the gap until Miss Lindsay was able to take over the office.

Lady Douglas Co., of which Miss Hilda Leighton, captain, has twenty-six guides and five recruits. Five guides have left and Patrol Leader Frances Gibbs is now acting lieutenant. The company will celebrate its seventeenth birthday with a Hallowe'en camp fire on October 30. The company is proud to claim no less than eight of the present guides of the district were formerly members.

Hillside company—Miss Yule George, captain: Two Brownies from Hillside pack have come up to the company. The guides are working for the November badge examinations. Miss Pearson has received her warrant as lieutenant.

St. George's company—Miss Dunnell, captain: Four new guides have been enrolled and two recruits received. Meetings were not resumed until October—no room being available. Equinault company—Miss I. Cox, captain: The company has been re-organized since the holidays. Fourteen of the older girls have left and hope to form a Ranger company in Equinault. There are now twenty-four members, including six recruits. Three patrols were formed and new leaders chosen. The company was very sorry to lose their lieutenant, Miss May Phillips, owing to other duties. The position is now held by Miss Doreen Ward.

Tillamook company—Miss Stocker, captain, having been granted two months leave, her place has been taken by Miss Pimm, with the assistance of Eunice Parker as acting lieutenant. The meeting after vacation started with only six old members, but three recruits have already joined, and more are in prospect.

BROWNIE PACKS

First Brownie pack—Mrs. Abrahamson, Brown Owl: Steady growth has resulted in a membership of thirty Brownies. One Brownie won her wings and flew up to Lady Douglas company. Five passed second class tests, and there are five recruits. Toys are being collected by the Brownies, who are bringing some from their own stores, and also making scrap-books for distribution at Christmas to children in need of playthings.

Tawny Owl, being unable to continue owing to stress of work, her place has been taken by Miss Eileen Morris of the Ranger company.

Evening pack—Mrs. R. P. Matheson, Brown Owl: Fifteen Brownies, including six recruits, are attending the meetings. Mrs. Monckton, acting duties, Mrs. Barclay is very kindly giving help by teaching knitting and hemming.

Hillside pack—Miss Joan Watts, Brown Owl: Meetings since the vacation record an attendance of ten Brownies. One first class Brownie received her wings and flew up, and two more were transferred to the company.

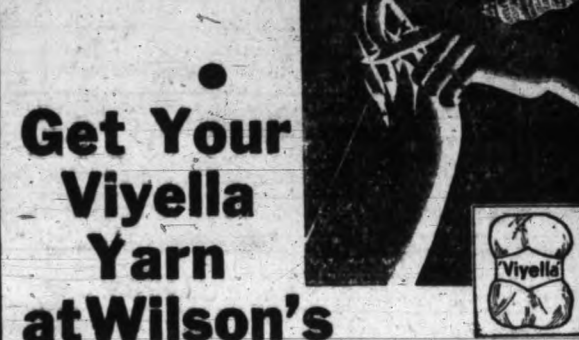

VICTORIA EAST DISTRICT
Oaklands company—Miss B. Wilson, captain: Sixteen guides are entering for badges, two for first class and three entries for third badges. A visit was made by the commissioner, Mrs. George, on October 9, who enrolled four guides. Miss Lomas is assisting the captain. Mrs. Swan and Ann Sharpe have left the company.

St. Margaret's company—Miss Taylor, captain: Held its first meeting after the vacation at Cadboro Bay in the form of a camp fire council meeting. Eight members are working for first class and the remaining ten for second class tests.

Comox company—Miss Ames, captain: This company sincerely regrets the resignation of Miss Stirling, captain, and of Miss Lindsay, Miss Ames is now in charge, with Misses Burke and Whalley as lieutenants. Thirteen

England's Loveliest

Get Your Viyella Yarn at Wilson's

In addition to Viyella Shirts and Pyjamas, we now offer Viyella Knitting Yarn, world-famous for its downy softness and unshrinkability. This is the same yarn that made Viyella Flannel noted throughout the world. It never fades... never mats... never irritates the skin. Actually, it will improve with washing. (See our window display.)

Why suffer needless misery and torturing pains of Rheumatism when the powerful, deeply penetrating quality of BAUME BEN-GAU (pronounced Ben-Gay) quickly brings comfort and relief to throbbing pains and irritated nerves. "Ben-Gay" brings a flow of fresh blood, removes inflammation, reduces congestion. Prescribed for over 30 years for every pain of nerve and muscle.

Ben-Gau
Accept No Substitutes

Guides have entered the badge examination; two recruits have joined, one guide enrolled and one transferred to the Ranger company.

Joan of Arc—Mrs. L. A. Genge, captain: Now numbers twenty-three members. Two were enrolled at last meeting.

St. Margaret's Brownie pack—The Tawny Owl, Miss Frank, is going away and Miss Taylor has kindly volunteered to carry on. There are eleven Brownies, four recruits. Work for second class tests is being done.

Gonzales pack—Mrs. L. A. Genge, Brown Owl: An energetic start was

made with a full pack of twenty-eight Brownies. Five were enrolled and five more are now ready for the enrolment ceremony.

Frank Patrick Comes Back in Coast Hockey League War

Return of Calgary and Edmonton Teams Will Strengthen P.C.H.L.

Salary Reductions Cause N.H.L. Players to Balk at Signing Contracts

IN THE Pacific Coast hockey war between Frank Patrick, president of the Pacific Coast Hockey League and joint owner of the Vancouver Lions along with the other members of the Patrick clan, and Hugh Caldwell, Seattle magnate, the former is, as usual, showing his fighting spirit and determined to carry on. After Caldwell made his threat to take the Seattle team out of the Coast League and sell the players, Patrick came back with an announcement yesterday that the Coast League would operate this season with teams entered from Vancouver, Portland, Calgary, Edmonton and possibly Tacoma.

This just about knocks flat Caldwell's assertion that the league needed the Seattle club. There has been considerable friction between the Patricks and the Seattle club owners ever since the Sound City club entered the league three years ago.

The surprising part of this little war is that Patrick tendered his resignation as president, but, showing good judgment, the directors of the league, with the exception of Caldwell, refused to allow the Vancouver prey to retire. They insisted upon a man of Caldwell's caliber to get the job done. Caldwell informed Caldwell that unless the latter severed his connections with the Seattle club, Seattle would not be in the circuit this season.

Caldwell replied that he would not be driven out of hockey by Patrick, and would withdraw his team from the league rather than be dictated to by the Vancouver man. Caldwell's threat had all the earmarks of a perfectly good bluff, but when Patrick refused to dicker any further Caldwell was forced to go through with the breaking up of his club. As a matter of fact Caldwell hasn't much to sell. Gordon Savage is about the pick. Caldwell is reported to have sold Sunderland and Houbregs to Boston.

Anyone who has been a keen follower of hockey will get more than an ordinary amount of amusement from the statement by Caldwell that the risk was paid \$50,000 for only a week's work. Being president of the P.C.H.L. embraces a lot more than seven days' labor. However, the main point is in having a man of Caldwell's ability and years of experience at the head of the league. Patrick is recognized as one of the shrewdest men in hockey to-day, and as a result of his lucrative offers from National Hockey League clubs, who fully realize his great ability.

All the trouble in the hockey world is not confined to the Coast League by any means. In the east a number of the National Hockey League clubs are finding it difficult to get their players to sign, following a general reduction in salaries. The hardest hit club of all appears to be the Detroit Red Wings. Although the directors decided to suspend the Ottawa and Philadelphia franchises for one year, and split the players of these teams between the other clubs, Detroit secured Connell, Mac Kilree and Alex. Smith, members of Ottawa. These three have received their contracts with reductions of from 10 to 25 per cent over last year's salaries, and as a result have balked at signing. The cut is general with Detroit, where the club owners are attempting to relieve the depression.

Joe Miller, former Philadelphia goalie, will slip out of the N.H.L. this season. He slipped with the Quakers last season, was given his unconditional release and replaced in the Philadelphia nets by Wm. Connolly. Miller has signed with Western Canada. Miller has signed with Syracuse, a minor league club. Leo Bourgeault and Art Gagne may see action in the American League, although the former has a chance to play with Tulsa. The New York Americans, it is said, will ask waivers on McVeigh, Sheppard and Carson.

Local Gridders In First Class Shape For Crucial Match

Victoria Team Needs Victory Over Classy Vancouver Club to Remain in Running for League Championship; Meralomas Triumphed Over New Westminster on Wednesday; Coach Doug Roberts Announces Local Starting Line-up; Goad and Robson Lost to Locals Through Injuries

Canadian rugby fans will see the Victoria team in action here for the second time to-morrow afternoon at the Royal Athletic Park, when the local entry opposes the Vancouver Meralomas in a "Big Four" fixture. The game will get under way at 2:30 o'clock with the field in first-class condition after recent rains. In the last match here the players suffered a number of painful bruises and skin abrasions owing to the hard ground.

S.A. Cricketers Put On 362 Runs In First Innings

Perth, Australia, Oct. 23.—Continuing their first inning against Western Australia to-day, the South African cricket team piled up a big total of 362 runs for seven wickets and then declared. Western Australia were dismissed in their first innings for 205. The game will be concluded to-morrow.

CALGARY IS SEEKING TWO-GAME SERIES

Alberta Gridders Desire Extra Game For Western Play-off With B.C. Champions

Games Would Be Played November 4 and 7; B.C. Willing If Expenses Guaranteed

Calgary, Oct. 23.—Falling their bid for the rugby playdown with British Columbia senior champions in a two-out-of-three games series, Alberta champions, the Calgary Altamonts-Tigers, are asking for a two-game series in Calgary with total points to count, it was announced here yesterday evening by Andy Naismith, president of the Alberta Rugby Union and Alberta representative on the Western Association.

Outlining the situation with regard to the western playdowns, Naismith said the Alberta Union first wanted a three-game series, with the dates as November 4, 7 and 14. This, he said, would be fair to both teams and give plenty of time to decide the third game if it was necessary.

With the western title match between the winners of the British Columbia-Alberta and Saskatchewan-Manitoba playdowns sought for November 11, a public holiday, the Alberta Union is now seeking a two-game series with the coast winners, with total points of the two games to decide the right to enter the western final. The proposed dates for the two-game series were November 4 and 7, he said.

Telegram to this effect were sent yesterday to Dr. E. A. McCuaker, Regina, president of the Western Canada Union.

Vancouver, Oct. 23.—If Calgary will guarantee the additional expenses to be incurred by a two or three game series, the British Columbia representatives in the Canadian Rugby League provincial semi-final playdowns will agree to the extended playdown schedule instead of the sudden-death game as previously arranged.

This was the decision reached yesterday evening at a meeting of the British Columbia branch of the Canadian Rugby League, at a request from the prairie city that the semi-final provincial playdowns, to be held in Calgary next month, be extended over the one-game limit originally decided upon.

It was pointed out that Calgary had agreed to guarantee the expenses of the Coast team, consisting of eighteen players, for one game, but that if the playdowns were extended to two or three games this would mean an added expense, in that the visiting team would have to remain away from home for five or six days, or longer, and that a larger team would be required for the more strenuous schedule.

The Coast executives were entirely agreeable to extending the game limit, providing increased expenses were guaranteed their team, and a message was dispatched to the prairie heads yesterday to this effect.

TEDDY M'AVOY SENDS THANKS

Joe North has received a letter of thanks from Teddy M'Avoy, well-known Victoria horse owner, who has been seriously ill in Vancouver, for the cash donations made by Victorians at a collection made during the horse races. M'Avoy expressed his keen appreciation for the interest shown by his friends. Teddy is at present living at 4041 Twelfth Avenue, West Point Grey.

A.A.U. OFFICIALS WILL SET DEFINITE DATE FOR CANADA OLYMPIC TRIALS

Setting of a definite date and time for staging of the Canadian Olympic trials in Vancouver for the games next year in Los Angeles will be the main item of business before the annual meeting of the B.C. Branch of the Amateur Athletic Union of Canada in Vancouver to-morrow evening. This was the statement made to-day by J. C. "Scotty" Dows, Victoria, president of the branch.

Victoria will be well represented at the meeting. The official local delegates will be Walter Maguire and Bill Oliphant, while Percy Watson and Gordon Woodbridge will attend as treasurer and secretary, respectively.

Brouillard Picked To Whip Thompson

Engaged in a campaign to regain the world heavyweight wrestling crown he lost to Don George, who in turn was beaten by Ed. Lewis, Gus Sonnenberg, originator of the flying tackle in the pro mat game, will make his third appearance in Victoria, on Saturday night at the Tillicum gymnasium. Sonnenberg is billed to appear in an eight minute-round bout with Pat McKay, Memphis heavyweight, as his opponent. The opening preliminary will commence at 8:45 o'clock.

Since returning from Honolulu where he took a much needed rest Gus has been bowling over opponents nightly. Yesterday evening in Vancouver he butted Count Harkovsky, Russian star, into submission in two straight falls. The previous evening he won on a foul from Abe Kaplan in Portland.

Sonnenberg is reported to be showing the same form as when he first appeared here when holder of the championship, when he wrestled here the second time as ex-champion, the former Dartmouth footballer appeared first falling to show to advantage.

McKay Popular Here

McKay, after his two appearances here in bouts against Axel Anderson and "Rocky" Brooks, is in solid with the fans. Last Saturday the southerner worked fast to put the skids under Brooks and as a result of his showing in this bout earned the right to tackle Sonnenberg.

In the five-round semi-windup Brooks has been matched with Hank Oswald, heavyweight grappler from Los Angeles. The latter will be making his first appearance in a local ring and little is known of his ability.

Vancouver, Oct. 23.—Unable to make progress with orthodox wrestling, Dynamite Gus Sonnenberg went down into his bag of tricks and pulled out that old standby—the flying tackle—to beat the Russian, Count Harkovsky, in the main event of the wrestling show at the auditorium yesterday evening. Gus took falls in the fifth and sixth round to win and finish up a dull bout in a hush.

Two preliminary canterers on the card ended in draws. Jack McLaughlin, Vancouver, and Ray Lyness, Portland, were unable to get a fall in their fast three-round opener. Howard Canton, wine, Iowa, and Axel Anderson, Seattle, finished up with one fall apiece in five rounds of grappling.

The Y.M.C.A. junior football team for to-morrow's match at Duncan will be as follows: Martin, Thomas, Bailey, Dixon, Moore, Gelling, Bill, Rose, Cave, McLeod, Frank Aldous and George Aldous. Cars will leave from the "Y" at 11:30 and 12:30 o'clock.

YOUNG JACK THOMPSON

Negro holder of the world welterweight boxing championship, who meets Lou Brouillard in a fifteen-round title bout at Boston to-night

Chicago Cubs Will Break Up Team For Campaign Next Year

Manager Rogers Hornsby and Owner William Wrigley Plan on Disposing of Hack Wilson, Pat Malone and Charlie Grimm; National League Club Would Like to Get Klein and Witney of the Phillies; Champion St. Louis Cards Strengthen Club With New Pitchers

New York, Oct. 23.—Football and hockey hold the sports page headlines these days by right of ancient precedent but baseball rumors are bound by no particular season of the year.

More trades and line-up changes have been made, on paper, in the last month or so than the sixteen major leagues managers actually made all last season.

Perhaps with good reason, most of the rumors have involved the Chicago Cubs who acknowledge Rogers Hornsby as boss. Picked to finish one-two in the National League race last season, the Cubs finished a disappointing third behind the St. Louis Cardinals and New York Giants.

Hornsby and the Cubs' owner, William Wrigley, already have announced that Hack Wilson has played his last game in a Cub uniform and the pudgy outfielder has been on the block ever since his suspension without pay for breaking training rules. Pat Malone, the big right-hander, is another whose welcome in Chicago has worn a bit thin. Probably he will figure in trades before the 1932 season begins.

TWO POSITIONS SAFE

Bill Herman is slated to cover second base and Elwood English will stay at short, but otherwise the Cub infield is uncertain. There have been persistent reports that Charlie Grimm will not be at first base next year although he had one of the best seasons of his long career in 1931. Third base is another weak spot, but Hazen Cuyler, Vince Barton and possibly Danny Taylor will be fixtures in the outfield.

Hornsby has eyes on Chuck Klein and Pinky Witney of the Phillies but has small hopes of landing either one. The Phillies have announced definitely that Klein, who is for sale, Hornsby would take Babe Herman for Wilson if he could get him and he would jump at a chance to get Ed Brandt of the Braves for Malone. There's been talk of a trade involving Malone and Danny Vance, but indications are the Cubs are not keen about it.

In addition to Brandt, the Braves have another pitcher several clubs could use—Fred Frankhouse. The New York Giants particularly are interested and so is Hornsby.

CARDS STRENGTHEN UP

The champion Cardinals apparently are pretty well set for another year although third base may prove a problem before long. The Cardinals are grooming Burgess Whitehead from Columbus as an eventual successor to Frankie Frisch at second base and the pitching staff will not be harmed by the addition of Dizzy Dean, Tex Carleton and Ray Starr, who among them accounted for sixty-six victories in the minors in 1931.

One of the most interesting prospects in the American League is Frank Crosetti, who battled 2-3 with San Francisco. He'll try to land the shortstop berth with New York Yankees.

Still searching for batting punch, the Boston Braves have picked up Oscar Eckhardt from the missions where he hit a tidy .368. Art Shires also will be wearing a Brave uniform next season and probably will replace regular first baseman in place of Earl Sherry.

COMMERCIALS WILL OPPOSE WEST ROADERS

Leaders of Victoria Senior "A" Hoop League Meet Suburbanites To-morrow

West Road Leading Senior "B" Division; Normal School Meet Intermediates

Three basketball games will be played at the West Road Hall, Saturday evening, with the West Road seniors meeting the Victoria Commercial in the feature tussle. In the other tiffs West Road intermediates will play Normal School, while the West Road women's team will meet one of the Victoria league teams.

The Commercial, undefeated leaders of the local senior "A" league, will have their hands full when they tackle the West Road senior "B" men on the suburbanites' home floor. The latter team hold first place in the Victoria and district senior "B" men's division and are quite capable of making the Commercial play all out to win.

The intermediate game, between the West Road and Normal School, should also prove interesting, with the latter slight favorites to come through with a win. The students will be up against a severe handicap, as they will be playing on a strange floor.

The West Road two men's teams will line up as follows:

Seniors—M. Lannon, O. Lannon, A. Styan, N. Andrews, W. Butler, Claude Staggitt and Clarence Staggitt.

Intermediates—L. Thompson, P. Lannon, S. Bickford, A. Bickford, W. Staggitt and J. Lannon.

A special meeting of the Victoria and District Wednesday Football League will be held at the Ideal Barber Shop, Douglas Street, on Monday evening at 8 o'clock. All team managers are asked to attend.

Wolgast Wins Easy

Sacramento, Cal., Oct. 23.—M. Wolgast, Philadelphia, recognize some states as world flyweight champion, had no trouble in winning a decision from Carlo Laredo, introduced as Mexican champion, in a ten-round fight here yesterday evening. Wolgast weighed 114½ pounds and Laredo

Chicago Racetracks Have Given \$100,000 To Unemployed Fund

Chicago, Oct. 23.—Hawthorne has dumped approximately \$65,000 into Governor Emmerson's fund for relief of the unemployed, boosting the total charity offerings by Chicago tracks beyond the \$100,000 mark.

A crowd of nearly 20,000 attended Hawthorne's charity card yesterday and admissions, along with money saved in reduced purses and a cash donation by the Chicago Business Men's Racing Association, made it the biggest charity day in Chicago this season. Previously, Lincoln Fields held a charity program which netted \$20,000, and Arlington Park netted \$25,000. Washington Park also will make a donation.

MAX DESIRES BATTLE WITH TOUGH WALKER

German Holder of Heavyweight Championship May Oppose Mickey in Miami

Promoter J. Johnson Ope Ballyhoo For Match; Sharkey Out For Winter

New York, Oct. 23.—The old fight fever is welling again in the veins of the faithful, people have taken again to arguing about boxing, and it appears a surprise "bul market" may develop for the heavyweights. There's a ballyhoo man, Jimmy J. Johnston, in the driver's seat again at Madison Square Garden, bell-wether of the boxing flock, for the first time since the death of Tex Rickard at the beginning of the decline three years ago.

Small, dapper, a dark Derby is perpetually cocked over one eye, Johnston is a dynamo, born and bred the fight game, as contrasting a figure as could be compared with the men of the tall, alert Texan. Their new begins and ends with a complete knowledge of the psychology of paying customers.

Johnston already has started causing a stir by his title defense this week against Mickey Walker, the former middleweight champion, who held Sharkey to a fifteen-round draw in of Johnston's personal promotion Bobbets Field this summer.

The Garden has Schmeling sign for a championship match, and German, sailing for New York with few weeks, has nominated Walker, his foe. Johnston wants to take match to Los Angeles, where the enthusiasm for the 1932 Olympics is stirring, but the Garden has agreed to stage a heavyweight fight this winter in Miami.

The Boxing Commission ban Schmeling will keep the bout out New York. After the proper amount public discussion, the boys will tussle at Miami, in Florida, if anywhere.

SHARKEY WITHDRAWS

Meanwhile Jack Sharkey, no Johnston's dicker with Jack De say will result in another shot at old champion here, next summer, scheduled from the winter picture nominating Ernie Schaff, the blonde he helps manage, as his ring proxy. "Fight me, fight my first," is the Sharkey slogan.

None of the young heavyweights seems anxious to do that, but are mustering for a season that see more big fellows in action, than at any time since the last Rickard.

Out-of-town Basketball Teams Will Play Here

Classy Multnomah Quintette to Make Annual Island Tour

Winged "M" Squad From Portland Will Play in Victoria at Christmas. While on Tour of Island; McCormack Lumber Company Five Also Coming; Vancouver Island Basketball Association to Make Plans for Knockout Competitions at Meeting in Nanaimo Sunday; Local Teams at Duncan To-night

With local basketball teams in the thick of the battle for city championships officials of the Victoria and District League and the Vancouver Island Basketball Association are laying plans for additional competitions for the benefit of the fans and players. Jack Taylor, president of the former organization, announced plans to bring several outside clubs for exhibition games this season.

BILL PEDEN AND PARTNER TIED FOR TOP PLACE

Old Lead in Montreal Six-day Race Along With Gachon and De Filippo

Victoria-Montreal Team Leads in Points; Race Ends To-morrow Night

Montreal, Oct. 23.—Further jams in the early hours this morning added excitement and color to the nearing climax of the six-day bicycle race at the Forum. Torchy Peden, Victoria, and his partner, Henri Lepage, Montreal, were to-day tied for first place with the Montreal team of Gachon and De Filippo, though Peden and Lepage have a lead on points.

Van Kempen and Audy pedalled a lap behind the leaders. Cross and Baggio and Fielding and Gachon were two laps behind the leaders, and the rest of the field were tiring out behind. Davies, Vancouver, a few laps behind the leaders. The standing this morning: Distance, 1002 miles, five laps: 1. Lepage-Peden, 384; 2. Gachon-De Filippo, 105; 3. Van Kempen, 353; 4. Cross-Baggio, 348; 5. Demsey-Fielding, 343; 6. Fielding-Gachon, 340; 7. Baggio-Cross, 336; 8. Van Kempen, 332; 9. Davies, 328.

HORSE RACING

Chicago, Oct. 23.—Results of horse racing yesterday at Hawthorne track: First race—Six furlongs: Wild Child (ganovsky) \$17.40, \$9.20, \$5; Sander (James) \$7.80, \$4.60; High Kets (Neil) \$3.20, Time, 1:14 1-5. Second race—Hawthorne Course: Sage (Hanford) \$22, \$10, \$6; Copfield (Corbett) \$2.20, \$1.40; Sander (Neil) \$4.20, Time, 1:20. Third race—Five furlongs: I Say (L) \$6, \$3.80, \$2.60; Simple Singer (Cott) \$4.20, \$2.50; Wordly (L) \$4.20, Time, 1:13 2-5. The National Hero of the Moment

THE DISSENTATION OF THE RECENT WORLD SERIES

OUTSHINES EVEN AN "ALGER" CHARACTER
The almost exclusive topic of conversation in baseball circles is Johnny Martin, the most glamorous world series star since the classic began. Others, in the distant years, have flashed brilliantly for one or two games or have placed some spectacular play upon the records so that their memories live for this year or that. But Martin has been the mighty man in every game played. The strange feature of it all, in the baseball career of Martin, is that he had to "steal" his way into the big league. The Cards, who picked him up in 1924, thought so little of him that when they ordered him to report at their 1925 training camp, somebody forgot to send him a ticket or money. Martin was suffering from a bit of depression at the time and so, to get to camp, he had to ride freight or the brake beams of passenger trains—without permission of the railroads. His arriving wardrobe consisted of the clothes he was wearing. Thus the saga of Johnny Martin not merely rivals, but it eclipses any story ever penned by the immortal Horatio Alger. Connie Mack paid this tribute to the hero of the series after his team had lost the fifth game of the series: "It looks as if we would have to kidnap Pepper Martin. He has hammered our every pitcher. They have tried to fool him with everything they have. But it has made no difference. He has hit everything. I never have seen such a world series player whom you absolutely could not stop."

QUAKERS TO MEET RIDERS

Saskatchewan's Gridders Will Make Supreme Effort to Stop Regina Squad

Winnipeg, Oct. 23.—Saskatchewan's fighting Quakers will throw their title hopes on a Regina gridiron Saturday and try to keep Al Ritchie's steam-rolling Roughriders from pounding their deep into the home town of the bandwagon in the Saskatchewan Rugby Union would be tied if Quakers down the hard-hitting Roughriders, but to-day there are no takers to long odds that the Ritchie men will capture their seventh straight provincial title.

The bid of University of Manitoba for the western intercollegiate championship is favored with more support as the big brown squad prepares for battle with Saskatchewan college champions of the prairies for two years. Even with Frankie Macdonald out of the line-up with appendicitis, Manitoba is given a chance to beat Saskatchewan.

One of the largest crowds in rugby's history here is expected to watch the intercollegiate clash. Both teams have beaten Alberta.

UPLANDS WOMEN WIN MATCH FROM MACAULAY TEAM

Women members of the Uplands Golf Club scored an 8 to 2 victory over Macaulay Club representatives in an interclub match played yesterday on the course of the former.

Complete results with the Uplands players first named, follow:
Mrs. Watson, 1; Miss Phyllis Hodgson, 1/2.
Sample, 1; Miss Peggy Hodgson, 1/2.

Mrs. Chiger, 1/2; Mrs. Silburn, 1/2.
Mrs. Nickson, 1; Mrs. Ware, 0.
Mrs. Dakers, 1; Mrs. Freeman, 0.
Mrs. Rust, 0; Mrs. Lovell, 1.
Mrs. Corbie, 1; Mrs. Meldrum, 0.

Three New Teams In Intermediate Rugby To-morrow

Fifth Regiment, J.B.A.A. and Oak Bay Wanderers to Make Bow to Followers of Game; University-Oak Bay Game Expected to Be Feature; Scottish Line Up Heavy Team to Battle Bays; Bruce Lowe, Former College Half, to Play With Oarsmen

Against three teams which battled in last Saturday's intermediate rugby fixtures, the three which were delayed at the opening will clash in to-morrow's scheduled games. Victoria College players, who ground out a hard victory over Canadian Scottish, will face the new Fifth Regiment entry at the High School. University School, which bowed before Brentwood College in the opener, will be out to avenge itself at the expense of the Oak Bay Wanderers at Mount Tolmie and the Canadian Scottish will battle with the James Bay Athletic Association at Oak Bay Park.

The game between the University School and Oak Bay Wanderers is expected to be the feature. The Mount Tolmie boys lost a hard fought opener to Brentwood but they enjoyed equally as much of the play as their opponents. Last year Charlie Morton developed a smart little squad down in Oak Bay, and the lads should put up a good showing against the school. Ellis will play fullback for them, with Williams, Slater, Paganman and McConnan as three, and is listed for five-eighths, with F. Stewart and Carmichael playing halves. Campbell, Mayhew, Hobson, Dickinson, Banks, Vauher and McGregor are lined up as forwards for the Wanderers.

City Will Meet Wests in Senior Soccer Saturday

In the only First Division football match scheduled to-morrow afternoon Victoria City and the Victoria West eleven will meet at the Heaton Hill grounds at 3 o'clock. McMillan will be the referee.

The City team will be as follows: Farquhar, Ashe, Campbell, Heal, Roper, Smith, Storry, Dorrington, Chancy, Murray, Keimann, Butterworth, Clark, and Glegg. Players are requested to meet at Veterans of France at 2 o'clock.

LES PATRICK GETS BRENNAN

Outstanding Defence Player of Vancouver Lions Sold to New York Rangers

New York, Oct. 23.—Purchase of Doug Brennan, big defence man from Vancouver Lions of the Pacific Coast League, was announced yesterday by New York Rangers, one of the two local representatives in the National Hockey League. Brennan will report to the team during the pre-season training in Toronto.

Brennan, captain last season of Vancouver Lions, went to the Coast circuit from Winnipeg Maroons of the American Hockey Association three seasons ago. Heavily built, weighing 185 pounds, he was one of the outstanding defence men in the Coast league last season, though he was prevented from finishing the schedule by injuries.

Brennan turned pro with Maroons after a season with Kenora in the Thunder Bay Senior Hockey League. He came to Kenora from eastern Ontario. Brennan's home is at Havelock, Ont.

O'Dea Obeded Whim And Became Famous

By AL DEMAREE
RED GRANGE SCORED 4 TOUCHDOWNS IN THE FIRST 10 MIN. OF PLAY WITH 4 RUNS OF 45 TO 95 YDS. ILLINOIS-MICHIGAN 1924

Pat O'Dea, the great kicker at Wisconsin, was a quarter ago, was an Australian and had played soccer as a boy. When he entered Wisconsin, he did not even try for the team at first, and watched work-outs of the first few days as a spectator. Seeing a ball rolling his way one afternoon, he picked it up and kicked it over a hundred yards. The coach ran up and immediately put a uniform on him.

He became one of the greatest kickers of all time, and his fame is now legendary. One of his feats was a sixty-three-yard dropkick for a field goal. Another a punt which carried an rolled 110 yards.

Jim Press, of Georgia Tech, kicked eighteen goals after touchdowns the first half of the Georgia Tech-Cumberland game in 1916.

J. T. Haxall of Princeton kicked a five-yard goal from placement against Yale.

BOSTON PLAYERS START TRAINING

Number of Coast League Hockey Stars Seeking Places on N.H.L. Club

Boston, Oct. 23.—Twenty-seven candidates for the Boston Bruins' and Bruin Cub's hockey teams have reported to Managers Art Ross and Eddie Powers at the University Club. The opening squads will go through the preliminary training as one unit and the players will have several practice sessions on the ice before being divided into National and Canadian-American League squads.

Among the newcomers to Boston were Tilt Touhey, from the Ottawa Senators; Joe Jerwa, with the New York Rangers last season; Frank, his young brother, from the Pacific Coast League; Sutherland, Conn. McCordick, Downie, Jackson and Pitkin, all with the same circuit last season, and Bud Cook, youngest member of the famous hockey family, who served with the Providence Reds last year.

Sammy Mandell To Meet Ralph Lenny In a Preliminary

Chicago, Oct. 23.—Sammy Mandell, former lightweight champion of the world, will return to the Chicago stadium where he defended his title in 1929 as a preliminary boxer.

Mandell has been signed to meet Ralph Lenny, clever Jersey City welterweight, in a ten-round preliminary to the championship battle between Bat Battalino, world featherweight titleholder, and Earl Mastro, Chicago contender.

After losing his title to Al Singer more than a year ago, Mandell has been fighting as a welterweight with varying success.

"Y" Swimmers Will Race Royal City Stars To-morrow

In a letter to Pat Copeland, secretary of the Y.M.C.A. Swimming Club, received here yesterday afternoon, Len Letroy, coach of the New Westminster "Y" squad, announced that the return gala between the clubs, originally scheduled to be held in the Vancouver Crystal Pool to-morrow, would be staged in the Royal City association tank. The local team will leave Victoria about twenty strong to compete in the different lists of events to-morrow.

Owing to the smallness of the pool, the men's 300-yard free style has been cancelled and the men's medley has been extended to ninety yards.

Qualifying Speed For Indianapolis Race Is 100 M.P.H.

Indianapolis, Oct. 23.—Race cars must have a minimum speed of 100 miles an hour to qualify for the 500-mile automobile race, to be run here on May 30, it was announced by the Indianapolis Motor Speedway Corporation yesterday. The qualifying speed in the past has been ninety miles an hour. The 100-mile average must be maintained for ten miles.

T. E. Myers, general manager of the speedway, also announced the entry would be increased from \$100 to \$200, but that most of the money would be used to swell the purse.

To Attend Track Group's Meeting

Archie McKinnon, physical director of the Y.M.C.A. and leading track coach in the city, will attend the first meeting of the newly-formed British Columbia Track and Field Association in Vancouver to-morrow evening.

Mrs. H. H. Lively was elected captain of the women's section of the Macaulay point Golf Club at the annual meeting in the clubhouse on Wednesday evening. Miss Phyllis Hodgson was named secretary, and Miss Mona Rickaby the third member of the women's executive. The social committee will include Mrs. Silburn, Miss Brakes and Miss Ferriman.

NEWS IN BRIEF

T. Durham was fined \$10 in Saanich Police Court yesterday afternoon for driving to the common danger. He also surrendered his driver's license.

Fred Cole, facing charges of possession and sale of drugs, was remanded for one week in City Police Court this morning. R. A. Wootton is prosecution counsel, and J. P. Walls will appear for the defense.

For the purpose of furthering evangelism in the city a meeting of the Douglas Street Baptist Young People's Society will be held to-night at 7:30 o'clock in the church. All young people of the other Baptist churches in the city are invited to attend.

The blind people of Victoria have been extended the use of the Crystal Garden. In recognition of this consideration, M. C. Robinson, Vancouver, superintendent of the western division of the Canadian National Institute for the Blind, has written thanking Alfred H. Cowlishaw, manager of the Garden.

The following players will represent the Victoria Junior football team in its match to-morrow: Lorrain, R. Rickson, B. Pearce, E. Lorrain, L. Kennedy, J. Emery, D. Graves, H. Robinson, F. Scott, J. Ball and J. Painter. George Graham, A. Whittamman and S. Emery will be reserves.

In County Court this morning Judge J. C. McIntosh awarded Charles C. Johnston judgment for \$665.85 against the Alaska-Washington Airways (B.C.) Limited. The case was for wages. Percy Wallis appeared for the plaintiff and no appearance was entered for the defendant company.

C. P. Hill and George I. Warren are expected to be Victoria visitors at the conference of the Oregon Federation of Garden Clubs to be held at Victoria, B.C., on October 30. In response to a request from the Oregon club the public information officer will talk on "B.C. Capital City Beautification."

Col. George Pragnell, inspector of Indian agencies for the Dominion government, arrived in the city to-day on departmental business. During the morning he conferred with W. E. Ditchburn, inspector of Indian agencies here. Col. Pragnell is staying at the Empress Hotel while in the city.

Preparatory to voting in the Columbia provincial election, the fill the vacancy caused by the death of John Buchanan, a court of revision will be held at Golden December 7. Nominations will be made on December 12 and voting will take place September 19. Provision for the special court at Golden was gazetted yesterday with G. E. Sanborn as registrar.

Judgment in Sanders vs. Begg Motor Company Limited was reserved by Judge R. E. Langman yesterday afternoon in County Court. The action was to recover \$330, the difference between a balance of \$1,220 the plaintiff admitted and the amount claimed. Judgment was reserved for the case after repleading. R. D. Harvey appeared for the plaintiff, and W. H. Bullock-Webster for the defendant.

Strengthening the bonds of international friendship between clubs all over the world, the Rotary Club of Victoria, B.C., expressed good wishes to the local group in the letter read at the meeting in the Empress Hotel yesterday. N. Perry, former president of Georgian, and Ald. J. Adams, who took the Canadian soccer team to play there, acknowledged the letter.

The new St. Louis College building at the corner of Vancouver Street and Padua Avenue will be formally dedicated by the Rev. Gerald Murray, Bishop of Victoria, at 3 o'clock in the afternoon. The public is invited to attend the ceremony and to inspect the school, which will be thrown open following the more formal part of the proceedings. The school will also be open to the public on Monday afternoon from 3 o'clock to 5 o'clock.

An export market for vegetable seeds and bulbs grown in British Columbia is being developed by a number of Vancouver Island seed growers, according to W. W. Duncan, director of markets. Twenty tons of garden seeds were recently shipped from Saanich to California, the consignment being valued at between \$4,000 and \$5,000. Export of island bulbs for forcing is also on a commercial basis, the local product being earlier and bearing more blooms.

Rotarian J. H. Fletcher was presented with the club's golf trophy to hold until the next meeting of the organization at the club's luncheon in the Empress Hotel yesterday. But he received it with the proviso that he would surrender his claim if Rotarian R. W. Mayhew, former holder of the award, turned in a better match score in a round this week. In the play last week, Mr. Fletcher captured the trophy with a net total of seventy-two. B. Dearson was low gross with eighty-eight.

To conclude negotiations with the federal government's unemployment commission, Hon. J. W. Jones will leave for Ottawa, when deciding on this course yesterday afternoon the provincial cabinet anticipated that final approval of British Columbia's programme of unemployment relief works will be secured with little delay. Decision to send Mr. Jones to the east was made after Premier Tolmie and Attorney-General Foster had reported on the western provincial conference at Calgary.

The weekly meeting of the St. Mary's A.Y.F.A. was held in the hall on Wednesday evening with thirty members present. After the business meeting five new members were admitted into the branch. Jack Aylin, president of the Victoria Local Council gave an outline of the programme to be followed during the Victoria-Vancouver conference on November 7 and 8. Canon A. de L. Nunn gave the members an interesting talk on Dr. Barnardo's Homes. There will be no meeting next Wednesday, as instead there will be a Halloween dance. Tickets for the dance may be obtained from any member of the branch.

Mrs. M. Nesbitt, 301 Gorge Road, was reported stricken this afternoon at the Jubilee Hospital, where she was taken after an accident on Gorge Road at the intersection of Tillamook Road, yesterday evening, in which she was knocked down, sustaining hip injuries and cuts on the arms.

J. H. Salmon, who lives near Parkson's Bridge was driving the car involved in the accident, police were informed. Mrs. Nesbitt was crossing the road to her home after purchasing a bottle of milk in a nearby store when the car hit her. The road surface was wet and visibility poor, it is stated.

Constable P. Cummings, Saanich, rendered first aid and Mrs. Nesbitt was taken to hospital in the C. and C. ambulance after arrival of Dr. A. G. Sinclair on the scene.

As Marshal in Admiralty for B.C., H. W. Goggin has completed seizure of two fishing vessels.

The Southend was taken at Prince Rupert, to meet claims of the Edward Lipsett Fish Supply Company for \$4,886.

The Snoqualmie was seized while calling for cold storage at the Ogden Point docks, Victoria, to face the claims of Hazel E. Erickson for \$3,041.

OAK BAY WILL ASK \$10,000 FOR RELIEF

First Request For Larger Amount Refused By Provincial Association

Favorable Consideration Promised Two Delegations Asking Improvements

Two delegations, one asking for improvements at Windsor Park and the other asking for improvements and additions to bridge paths in the municipality, were received by the Oak Bay Council yesterday afternoon. Favorable consideration was promised by Reeve Hayward to both delegations. The council also decided to ask the Provincial Government for a \$10,000 grant for unemployment relief this winter.

Captain P. G. Dexter, principal of Monterey School, and School Trustee F. P. Curtis, representing the Oak Bay School Athletic Association, asked the council to ask the Provincial Government for a \$10,000 grant for unemployment relief this winter.

The council will make its reply after due consideration. The delegation included F. B. Pemberton, Dugald Gillespie, A. Stewart Clarke and Russell Kerr. Reeve Hayward pointed out the objections to the bridge paths and the council will make its reply after due consideration.

Headed by Major K. B. Spurgeon, the delegation asking for bridge paths in Oak Bay, pointed out a number of proposed routes and additions to present paths. It was suggested to the council that some of the unemployed might be utilized in this work. The delegation included F. B. Pemberton, Dugald Gillespie, A. Stewart Clarke and Russell Kerr. Reeve Hayward pointed out the objections to the bridge paths and the council will make its reply after due consideration.

The council decided to ask the Provincial Government for the \$10,000 unemployment grant following the reading of a letter from the Deputy Minister of Public Works, advising Oak Bay that its request for \$25,000 for relief was too much considering the comparative unemployment in the municipality. It was suggested in the letter that \$10,000 might be asked for. Reeve Hayward will look after the details of this request.

'Dunmow Fitch' Given Happily Wedded Clubmen

Twenty-five Years of Happiness Marked by Rotarians With Old English Custom Modified.

"What Price the Fitch of Bacon"—With a specially adapted song modeled on this theme, lauding the married bliss of John Wood and W. Bell, Rotarians honored their fellow members on their silver wedding anniversaries at the club's luncheon in the Empress Hotel yesterday. And when the function was over the two clubmen returned home with the bacon.

Englishmen of the service organization adopted the ancient Dunmow Fitch custom of the Old Land yesterday to congratulate their two friends. President Percy Watson referred to the custom, still in existence in some parts of Britain, in which a community pays tribute to the married bliss of well-liked couples by awarding them a lasty side of the finest bacon raised in the county.

In a rousing baritone, R. R. Webb led the gathering in the song, extolling the virtues of the members and their wives, while the gathering gave a wholehearted support in the choruses. Mr. Wood replied fittingly with a Yorkshire dialect rhyme.

The happy day celebrated was a parcel of rashers in cellophane wrappers. The spirit of the clubmen could not have been illustrated more clearly, however, with a real Dunmow Fitch.

STOCK-RAISING OFFERS FARMS WAY TO WEALTH

H. B. Thomson Sees Vancouver Island as Pure-bred Centre of Canada

Rev. M. W. J. Bruce Heads Agriculture Committee of Chamber of Commerce

Vancouver Island as the potential nursery of the purebred industry of Canada was pictured by H. B. Thomson, chairman of the Provincial Liquor Control Board and war-time food controller of Canada, this afternoon in an address before the annual meeting of the agricultural group of the Chamber of Commerce.

P. L. Nayneth presided and the meeting was attended by many leading business men and bankers. Prior to the address Rev. M. W. J. Bruce was elected chairman for the coming year.

"What we should realize is the position British Columbia is in to-day. It is interesting to compare this province with countries of Europe. Vancouver Island has more natural resources than Italy ever had. Italy has no coal, and little agricultural land. To-day Vancouver Island should have 1,500,000 people," Thomson asserted. "Last year we imported foodstuffs worth over \$22,800,000. Over \$20,000,000 came from other provinces of Canada. What agricultural products in the other provinces cannot be raised in British Columbia? I only know of maple sugar."

"This condition means we have to sell other things to pay for the imported agricultural products. Then there is the meat situation. Seventy per cent of all we eat is imported. With our wonderfully mild climate, where livestock can winter outside, why cannot British Columbia raise enough sheep to feed ourselves? On Vancouver Island they are doing well in a small way," he pointed out.

FIFTY DAYS' SUPPLY. Regarding butter, Mr. Thomson said Vancouver Island only produced enough last year to meet the demands of her people for fifty-three days. He commented on the uselessness of advertising this island as a tourist resort in the face of such a situation. To emphasize the condition, Mr. Thomson cited the heavy dairy exports of New Zealand.

Canned fruits and vegetables provided a notable opportunity in British Columbia, last year's imports being over 7,000,000 cans. When this province should attain a production of such foodstuffs beyond the needs of the home market an enormous British market was waiting to absorb the surplus, he said.

Pointing to the trend towards mixed farming on the prairies, Mr. Thomson said "Vancouver Island can become the nursery of the purebred industry of Canada. This outdoor climate is ideal for raising live livestock, and we have the area of Canada available. We made no effort to glorify the war, but presented the picture as it appeared to him."

At the second battle of Tyre, the Canadians had carried through the most heroic action of the war. Major Hinton declared, telling of the terrific toll of the first battle.

The council decided to ask the Provincial Government for the \$10,000 unemployment grant following the reading of a letter from the Deputy Minister of Public Works, advising Oak Bay that its request for \$25,000 for relief was too much considering the comparative unemployment in the municipality. The Ability to Run a Hundred Yards in Thirteen Seconds Flat May Seem Like a Strange Qualification for Wifehood, But It Guarantees Health, Without Which No Marriage Can Be a Success

The ability to run a hundred yards in thirteen seconds flat is a new qualification for wifehood, yet such is the test that a learned professor advises young men to apply to the girls they are thinking of marrying. This will seem a hard saying to young women who find that men already want the earth tied up with a blue ribbon when they get married. As it is, they expect their wives to be beautiful and remain perpetually young. To be vamps and fascinatrices. To be blue-ribbon chefs. To be dime-nurses. To be vaudeville entertainers, with always a new line of stuff on tap. To be press agents who will always get them in the limelight. To be sick nurses and baby nurses. To be good bridge players. To be patient listeners and to be unwearied claqueurs. And in addition to all of these varied accomplishments and virtues they have to be good sprinters in order to get a husband, they say the Spinster's Retreat as their finish.

However, the suggestion that a man should find out whether a girl is sound in limb and wind before he lets himself in for her doctors' bills is wise counsel that any prospective bridegroom will do well to take. For the success and happiness of every marriage depends more upon the health of the wife than upon any other one thing.

Yet, strangely enough, health is the very thing that men most overlook in selecting their wives. Apparently the question of whether a girl is physically able to stand the wear and tear of life, and especially of life with a poor man, never enters their heads. A man will marry a living skeleton of a girl without even wondering if it is incipient tuberculosis or anemia or chronic dyspepsia that makes her so thin. Or he will marry a girl because he is charmed with her vivacity without suspecting that the reason she can never keep still and is keyed up so high is raw nerves. Or he will marry a girl without even inquiring into her pedigree and finding out if there is some hereditary taint in her blood that she will inflict on his children.

That men marry with this reckless disregard of the health of the ladies they are leading to the altar is an overwhelming proof that love turns them into optimists. For nearly all men have a horror of sickness and sick people and sick rooms. Very few would deliberately let themselves in for an invalid wife, and when they marry frail, delicate girls it is because in their infatuation they believe that some miracle will turn them into husky, able-bodied women.

A man's idea of a happy married life is not ministering to a sufferer or sitting by a bed holding a thin, white hand or spending his evenings listening to symptoms. Women often get a kick out of nursing an invalid husband, but every wife knows the martyr expression her husband wears when she is ill and the relief in his voice when, after having dutifully asked her how she feels, he remarks that as there is nothing he can do for her, he guesses he will step down and listen to the radio.

The advantages of having a healthy wife are, of course, too obvious to need insisting upon. For one thing, it insures a man a partner who is an asset instead of a liability. The strong woman can pull her weight in the boat. The sick woman must be carried.

The well woman can do her share of the work that lays the foundation of a fortune. She can make a comfortable home and look after her children, but the poor invalid is forced to be a constant drain upon her husband's pocketbook, and she has to neglect her house and her children because she has not the strength to look after them. Many a man sees most that he makes go to doctors and trained nurses and sanatoriums and comes home at night either to do the housework himself or to a house that is run incompetently by wasteful servants who have no mistress's eye upon them.

The atmosphere of a home depends upon the wife. It is gay and joyous, or sad and depressed, as she makes it. Now cheerfulness is absolutely dependent upon health and vitality. No one can have a light heart in a pain-racked body. No one can smile and be merry when their liver is out of order or their back aches. No one can be sweet and amiable when every nerve in their bodies is quivering and they want to shriek and tear things and everything that anybody says or does irritates them to the point of madness.

The reason so many women are fretful and nagging and hysterical and unreasonable is just because they are sick and miserable, but that doesn't make them any easier to get along with, nor does it cause the homes they make to be any less purgatories to live in, nor does it keep them from driving their husbands away from them to less neurotic women.

Of course, ill-health is a misfortune that may happen to any woman, and when it does, her husband is bound by everything that is fine and honorable in him and by every law of love and tenderness to cherish her in every possible way.

But before marriage a man is wise if he regards the health of his intended and sees if she can do a hundred yards in thirteen seconds flat.

Uncle Ray's Corner

Your Morning Grapefruit

At breakfast this morning, what kind of fruit did you eat? I hope you had fruit of some kind, for it is essential to do so. Peaches, prunes or orange juice help to start the day right.

Another excellent morning dish is the grapefruit. Half of a large cold grapefruit, a spoon, and—watch out for the juice!

Grapefruit on tree.

The grapefruit grows on trees, and is a native of Asia because the Indians eat a close "relative" of both the range and the lemon. Although not so sweet as an orange, it is not so sour as a lemon.

For more than 2,000 years grapefruit trees have been cultivated in India and the East Indies. Spaniards brought grapefruit seeds to the New World about 400 years ago, and planted them. For a long time, people of Florida made little use of the grapefruit. Now and then they used grapefruit juice as a "tonic," but the fruit was often allowed to fall from the trees and lie on the ground until it rotted.

Toward the end of the last century, knowledge of the value of grapefruit began to spread. The "golden globe" are shipped from Florida to New York and other markets in the north. Since that time the growing of grapefruit has become an important industry. In recent years Florida produced 9,000,000 boxes of grapefruit with a value

of \$22,950,000. In the same year grapefruit trees in California had a yield valued at \$2,800,000. Smaller amounts of the fruit came from Texas and Arizona.

The fact that grapefruit grows in clusters (resembling us a little of clusters of grapes) explains the name; but the grapefruit is from an entirely different family than the grape.

A close relative of the grapefruit is found in the West Indies. It is known as the "shaddock," and legend says that it was named in honor of a sea captain named Shaddock, who brought seeds from the Orient.

The shaddock has much the same shape as a pear. It is larger than the grapefruit, and often weighs from nine to twelve pounds. The shaddock is so bitter as to be hardly fit for food, but its juice is sometimes mixed with water used for scrubbing floors, a practice which is supposed to drive away insects.

To-morrow—A Little Saturday Talk.

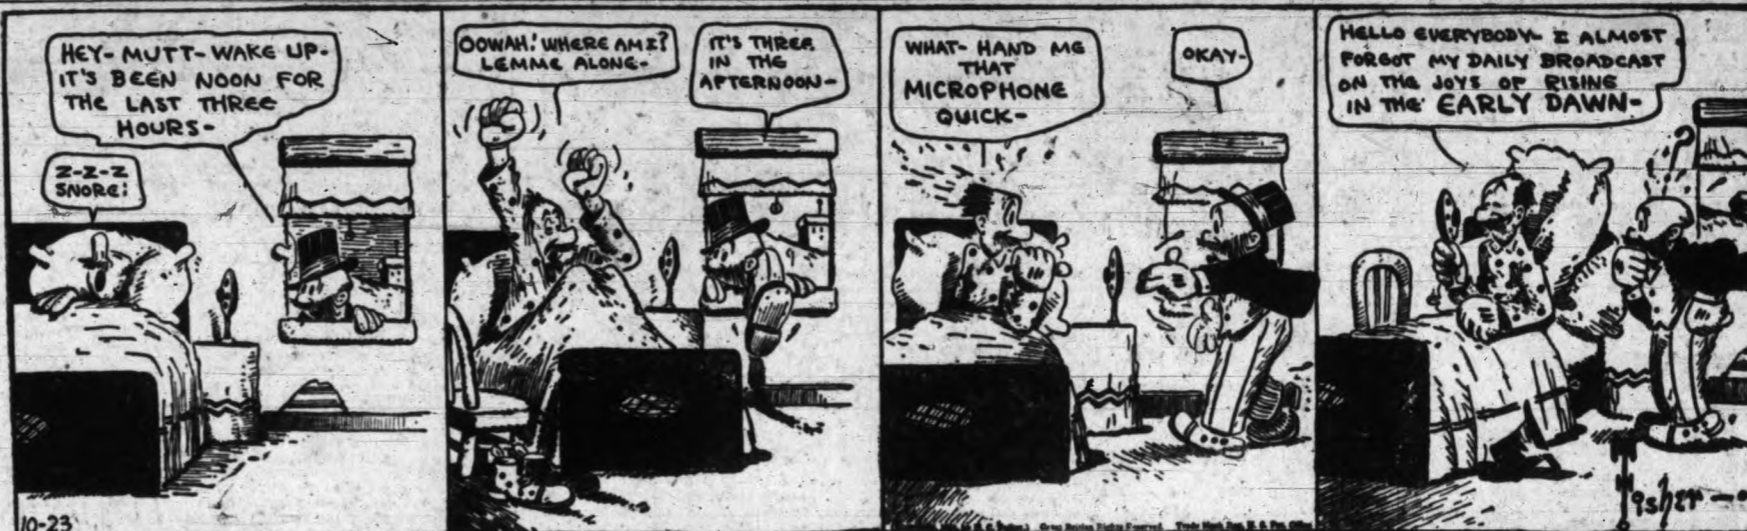

Uncle Ray

AID RELIEF FUND

Calgary, Oct. 23.—Alberta civil servants in Calgary yesterday evening voted to make a voluntary contribution to the provincial government's unemployment relief fund, but definitely pointed out it was not a salary reduction. From salary cheques would be deducted about 4 per cent, along the lines outlined by Premier Brownlee recently. Actual salary rating, however, would remain the same. R. W. Ellis, president of the Provincial Civil Servants' Association, said the plan would probably go into effect in November, the approval of only three branches still being awaited.

BOND CONVERSION ACT

Canberra, Australia, Oct. 23.—Without a division, the Australian House of Representatives yesterday passed the debt conversion bill, compelling defaulting holders of government bonds to convert their holdings into the new stock at reduced interest rates.

DOMINION EMBOSSED Inlaid LINOLEUM

Design shown is No. 9011, available in three different colour schemes.

Dominion Liquid Wax in quart and gallon tins is easy to apply and imparts a beautiful polish with little effort. Keeps all linoleum floors at their best over long periods. Sold by Floor Covering Dealers.

Nothing could be more charming, more appropriate, more original... or more practical. For the new Dominion Embossed Inlaid linoleum floors are stain-proof, non-absorbent, easy to clean, permanent. And, best of all, being made in Canada, their cost is far below what you have been accustomed to pay for imported goods.

In warmth of rich colourings, in distinction of design, in old-world charm, you have never seen a floor to equal them. For sun porches, passages, entrance halls and all rooms. Wherever installed, Dominion Embossed Inlaid... their beauty enhanced by the famous soft-lustre Domolac Finish... add a touch of utter smartness, save housework and give quiet comfort underfoot.

Your floor covering dealer will gladly show you the full range of colourful patterns.

DOMINION OILCLOTH & LINOLEUM COMPANY LIMITED—MONTREAL

AT THE THEATRES

DOMINION THEATRE

The Four Marx Brothers do not miss a trick when it comes to providing comedy on the screen. In fact, Director Norman MacLeod, who boomed their most recent and most frolicsome opus, "Monkey Business," now being shown at the Dominion, sees in their efforts on the screen every known comedy method, ranging from slapstick to subtle satire.

MacLeod can be called the perfect analyst of comedy methods. He began by drawing the comical line cartoons for Christie comedies several years ago. Then he became a title writer and subsequently a gag man, scenarist and director.

Through a careful choice of characterization for themselves, the Marx Brothers have combined all modes of comedy within their own entertainment," says MacLeod.

COLUMBIA THEATRE

E. Phillips Oppenheim, internationally known writer, has reached the screen with "The Lion and the Lamb," one of the most famous and best selling mystery thrillers. It is a Columbia picture and is now showing at the Columbia Theatre.

"The Lion and the Lamb" was not only received with acclaim by the critics but was listed among the six best sellers of the year. The screen adaptation includes in its cast Walter Byron, Marjorie Segar and Carmel Myers.

PLAYHOUSE THEATRE

Mary Moe, vivacious leading lady at the Playhouse, is popular this week in "She Couldn't Say No." She is ably aided and abetted in her humorous efforts to extract some stock from an old "skintail," by Basil Cochrane and Lorus Bagley, plaintiff, and Francis Sayles as "Ellaphant Potter," defendant in a breach of promise suit, are winning many laughs as rewards for their comedy characterizations. Betty Kent, pretty and petite ingenue with the company, is a sweet girl from the country, and Verne Layton is her uncle, the judge. G. Donald Gray sings a musical programme between acts which includes the well-loved "The Yeoman's Wedding Song." South Albright and Phil Keeler give one of their comedy sketches to rounds of applause. "She Couldn't Say No" will play at the Playhouse until Saturday night, with a matinee Saturday afternoon at 2:30 o'clock.

COMING TO COLISEUM

Loretta Young, star of "Big Business Girl," the first National picture which comes to the Coliseum Theatre to-morrow, is the most prominent of three beautiful sisters, all of whom are on the screen. Her sisters, both slightly older than she, are Polly Ann Young and Sally Blane. William A. Seiter directed "Big Business Girl," while the supporting cast includes Frank Albertson, Ricardo Cortez, Joan Blondell, Frank Darion, Dorothy Christy, Nancy Dover, Oscar Apfel and Virginia Sale.

SYMPHONY IS WELL RECEIVED

Large Audience Delighted By Recital of St. Andrew's Orchestra

In its second performance of the year at the Chamber of Commerce yesterday evening, the St. Andrew's Symphony Orchestra delighted a large audience with the recital of world-famous selections. Those attending regarded it as one of the finest amateur symphony concerts ever staged here.

Jesse Longfield, the conductor, deserves great credit for his work in bringing the organization to such perfection. The strings, especially, showed a technique seldom seen in an orchestra of the kind.

The vocalists were Miss Scott-Burrit, Arnold W. Trevett and Frank Spooner, and received a fine reception for an unusually splendid performance.

Following are the selections played and sung during the evening: Overture, "Stradella" (Piotov), "The Pilgrim's Song" (Tchaikowsky); "The Shepherdess" (Macmurrough); scenes pittoresques, "Angulus" (Massenet); selections from "The Monk of Elland" (Van Peltz); Spanish serenade, "Mandolinene" (Ellenberg); "Song of India" (Rimsky-Korsakov); Intermezzo, "In a Persian Market" (Kestelbey); "Maymaking" (Allisen); pastorelle, "A Song of the Night" (Clegg); "In the Stillness of the Night" (Rachmaninoff); and march, "Coronation" (Ellenberg).

The accompanist was Mrs. C. C. Warn.

CATARRH CAUSES HEAD NOISES AND DEAFNESS

GREAT EUROPEAN REMEDY OPENS UP CLOGGED NOSTRILS AND RELIEVES CATARRHAL DEAFNESS

Few people realize what a serious disease catarrh really is. If neglected, the damage it does is often irreparable. Deafness, lung troubles and head noises, that drive the sufferer nearly frantic are frequently due to this insidious disease, whilst neglect of catarrh often makes its victim into a worn-out run-down catarrhal wreck. What is catarrh to-day may soon be something far more serious. It is more than a trifling ailment—more than a disgusting disease. It is a dangerous one. Unchecked it frequently destroys smell, taste and hearing, and slowly but surely undermines the general health.

If you have catarrh in any form, go to your druggist and get an ounce of Parmit (Double Strength). Take this home and add to it a pint of hot water and a little ordinary sugar. Take this powerful four times a day. Parmit is the great concentrate for catarrh that is now being so extensively used here in Canada, where it is giving satisfaction even under our own trying climatic conditions.

Catarrh being a disease of the blood, the only possible way to relieve it is by treating the blood itself. Drive the catarrhal poison from the system by treating the blood, and the disease itself must vanish. Parmit has proved successful in many cases because it acts directly upon the blood and mucous membranes.

To be able to breathe freely, to hear plainly, smell, taste and enjoy the morning refreshed and strong, and with the head and throat free from irritating conditions, take Parmit a trial—and with your whole system trying for relief you should start the treatment now. (Adv.)

Where To Go To-night

As Advertised.

Capitol — "Waterloo Bridge," with Mae Clarke.
Columbia — "The Lion and the Lamb," starring Walter Byron.
Dominion — Four Marx Brothers in "Monkey Business."
Coliseum — "White Cargo," with British all-star cast.
Shrine Auditorium — "The Beauty Shop of 1931."
Playhouse — G. Donald Gray and Company in "She Couldn't Say No."
Crystal Garden — Swimming, dancing, badminton.

CAPITOL THEATRE

Universal's "Waterloo Bridge," the picturization of the Robert B. Sherwood stage play at the Capitol Theatre, includes a highly dangerous scene which studio officials requested Mae Clarke, the featured player, to refrain from playing and be replaced by a "double."

During a London air-raid, in the picture, a terrific charge of dynamite is exploded on "Waterloo Bridge" as the little actress crosses it. After several attempts, Director James Whale concluded that actual dynamite should be used unless realism was to be sacrificed, and he urged the talented Mae to make way for a "stunt actress."

This she refused to do, however, insisting that a "double" would break the rhythm of the picture, and proceeded with the scene to the admiration of Kent Douglas, Doris Lloyd, Frederic Kerr, Bette Davis, Enid Bennett, and the other members of the cast.

COLISEUM THEATRE

"White Cargo," the all-talking picture based on the stage play of the same name, is now at the Coliseum Theatre.

The popularity of "White Cargo" here is but a repetition of what it has secured in every other theatre it has played. When it opened at the George M. Cohan Theatre in New York the management there originally booked it in for only two weeks. But its success was so extraordinary that a legitimate stage show which was to follow the picture had its bookings deferred for a number of months.

NEW BURSARY FOR COLLEGE

Annual \$200 Gift to Encourage Study of French

Announcement of a new bursary of \$200 annually, to be known as the Quita Nichol Scholarship for the encouragement of the study of French, to be given by Mrs. W. C. Nichol, was made by P. H. Elliott, principal, at the annual Victoria College prize-giving ceremonies held yesterday afternoon at the Victoria High School.

Professor Elliott said the Walter C. Nichol scholarship expired this year, and through kindness of Mrs. Nichol this new bursary would be provided.

In his introductory remarks Mr. Elliott said this term's registrations were exceedingly gratifying, 260 students being in regular attendance, an increase of 10 per cent over last year's mark. The evening classes for teachers, an innovation begun at Victoria College, and since taken over by the University, also show an increase in enrollment. The speaker thanked Mrs. Glosser and W. J. Edwards and J. S. McMillan for gifts of books to the library.

Hon. Joshua Hinchliffe, Minister of Education, gave an inspiring address to the students.

Some of his remarks he said some people believed tests, examinations and prizes should be done away with as they served no purpose and were useless. This was not the case, he claimed. Tests, examinations and prizes were found in greater abundance in life after college and those given or received at university only prepared the recipients for the greater ones to come afterward.

"Have some definite aim in your college work. Work for that object and work hard, choosing your courses so that they will help you reach that goal" was his closing advice.

George Jay, chairman of the Victoria Board of School Trustees, spoke briefly on the Royal Institution and Frank Eaton Memorial Scholarship, took his listeners back to the early days of Victoria College when it was associated with McGill University.

Kidnappers in New York Sent to Prison

Associated Press.

New York, Oct. 23.—Four men, convicted of kidnapping Charles M. Rosenthal, young Wall Street broker, for \$50,000 ransom, were sentenced to-day to terms of sixty years each in prison. The kidnappers were Marcus Blumenthal, alias Jack Markham; Albert Bileo, alias John Rocco; Theodore Adanoff, alias Harry King, the latter two from Newark, N.J., and Nicholas Rustigliano, manager of the Hotel Vendig.

A mulatto girl known as Betty Green was tried with the kidnappers but was acquitted.

The four men said Rosenthal had arranged to have himself kidnapped so he might obtain money from his mother as a ransom. This was denied by Rosenthal.
